November 22, 2019

Ref.: Environmental Clearance letter no. - J-11015/203/2011-IA.II(M) dated- 3rd March 2014.

SUB: Half Yearly Compliance Status Report of Environment Clearance conditions issued by MoEFCC, New Delhi to Jamadoba Coal washery, Tata Steel Limited, Dhanbad for the period April'19 to September'19.

Dear Sir,

We are enclosing herewith compliance report for the period **April'19 to September'19** for the EC granted vide letter no.- J-11015/203/2011-IA.II(M) dated- 3rd March 2014 issued by Ministry of Environment, Forest and Climate Change, New Delhi.

Copy of the compliance report is also being sent in soft format through email at ro.ranchi-mef@gov.in for your kind perusal. We trust the information furnished is in line with your requirement.

Thanking you,

Yours faithfully,

Head (Planning)
Jharia Division, Tata Steel Ltd.

Encl: As above.

Copy to: Member Secretary, CPCB, Eastern Zonal Office, Southend Conclave, 502, 5th Floor
1582, Rajdanga Main Road, Kolkata -700107.

Copy to: Member Secretary, JSPCB, T.A. Division Building (Ground Floor), H.E.C, Dhurwa,

HALF YEARLY COMPLIANCE REPORT
(PERIOD: APRIL'19 – SEPTEMBER'19)

JAMADOBA COAL WASHERY
(CAPACITY: EXPANSION FROM 1 TO 2 MTPA RAW COAL
THROUGHPUT)
TEHSIL: JHARIA, DIST: DHANBAD, JHARKHAND

TATA STEEL LIMITED, JHARIA DIVISION

**P.O.- JAMADOBA, DIST. - DHANBAD,
STATE- JHARKHAND, PIN CODE – 828112.**

**ENVIRONMENTAL CLEARANCE GRANTED VIDE LETTER NO. - J-11015/203/2011-
IA.II(M) DATED- 03.03.2014 ISSUED BY GOVT. OF INDIA, MINISTRY OF
ENVIRONMENT, FOREST AND CLIMATE CHANGE, NEW DELHI.**

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

S. No.	Condition	Compliance Status
Specific Condition		
(i)	Adequate green belt shall be provided around coal handling and other areas.	Greenery has been developed in many areas around the washery premises. Since the expansion job has been completed, remaining area is also being developed since last monsoon. The report on greenbelt development with photographs is provided in Annexure-I.
(ii)	Action plan be developed and implemented for abandoned tailing ponds and for their restoration to the original land use.	Action plan for cut-off of tailing ponds from tailing management system is in place. Abandoned tailing ponds have been reclaimed by backfilling. Technical reclamation have taken place in two large ponds. Biological reclamation is going on by planting native species in this monsoon season.
(iii)	Fly ash generated from the captive power plant of the washery be utilized for house construction, roads and such uses, strictly complying to the timeline in the EIA Notification, 2006 and maintaining proper records.	This is not applicable as we have ceased the operation of our captive Jamadoba power plant since April'15.
(iv)	No use of fly ash with sand will take place for stowing in underground mines.	This will be strictly followed for our captive underground mines.
(v)	Transportation of fly ash to be done properly by mechanically covered trucks.	This is not applicable as there is no fly ash being generated since April'15.
(vi)	The proponent shall connect all the villages in the leasehold area with water pipeline connection.	All the villages in the leasehold areas will be supplied safe drinking water through pipeline connection. A network of more than 22000 metres of pipeline connection has been established along with 33 water tanks (capacity of 4500 litres).
(vii)	The proponent shall expedite and implement the pilot plant to convert mine water into drinking/domestic water to supply the same to the population of Dhanbad and surrounding areas and shall continue to carry out this activity.	Mine water is already being converted into potable water by Tata Steel in our 4 nos. Water Treatments Plants (located at Jamadoba, Digwadiah, Bhelatand and Malkera having cumulative capacity of around 8000 KL/D). The treated water is then supplied to our colonies and leasehold villages. This will continue in future too.
(viii)	Tanks/ponds shall be regularly cleaned	Tanks/ ponds are regularly cleaned and

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	and maintained. Plantation activities shall be intensified in the mine areas.	maintained by TSRDS. Some of the glimpses of the activities are shown below. Plantation activities are undertaken every year in the barren mine leasehold areas. Further, TSRDS engages with the villagers for plantation in the village lands. In last financial year, total 5 Nos of new ponds have been developed and 9 Nos of old ponds have been renovated by deepening and siltation removal.																																								
(ix)	The proponent shall expedite the activities undertaken by TSRDS in over 30 villages in the leasehold area over 15000 households covering a population of about 1.4 lakh.	CSR activities of TSRDS are managed by a team of experts who are dedicatedly involved in providing benefits and improving standard of living in over 30 villages. The list of activities are developed in consultation with the village representatives and implemented in a time-bound manner.																																								
(x)	CSR activities of TSRDS are managed by a team of experts who are dedicatedly involved in providing benefits and improving standard of living in over 30 villages. The list of activities are developed in consultation with the village representatives and implemented in a time-bound manner.	The proposed CSR expenditure for the entire company is decided as per the new Company Rules. Once the CSR budget for company is fixed, a share of that amount is dedicated and utilized for implementing the CSR activities at our Jharia Division level. The CSR expenditure for FY19 is Rs.5.65 crores.																																								
(xi)	Cost for additional environmental protection measures shall be not less than Rs. 503.00 lakhs. The status of implementation including costs incurred shall be regularly reported to this Ministry and its respective Regional Office in the region as part of the compliance report and also uploaded on the company website.	<p>The status of implementation of environmental protection measures under expansion project as on date is as follows:</p> <table border="1"> <thead> <tr> <th>S. No.</th> <th>Items</th> <th>Proposed Expenditure (in Cr.)</th> <th>Actual Expenditure (in Cr.)</th> </tr> </thead> <tbody> <tr> <td>1.</td> <td>Effluent Management/ Standby Thickener</td> <td>0.30</td> <td>3.59</td> </tr> <tr> <td>2.</td> <td>Dry fog dust suppression system</td> <td>0.70</td> <td>0.72</td> </tr> <tr> <td>3.</td> <td>Dust Extraction System</td> <td>0.30</td> <td>0.34</td> </tr> <tr> <td>4.</td> <td>Tailing dewatering</td> <td>10.0</td> <td>17.46</td> </tr> <tr> <td>5.</td> <td>EIA/EMP</td> <td>0.20</td> <td>0.25</td> </tr> <tr> <td>6.</td> <td>Concretization of working complex</td> <td>1.00</td> <td>1.75</td> </tr> <tr> <td>7.</td> <td>Mechanized Sweeping</td> <td>1.00</td> <td>-</td> </tr> <tr> <td>8.</td> <td>Transport Road</td> <td>0.50</td> <td>0.75</td> </tr> <tr> <td>9.</td> <td>Total</td> <td>14.00</td> <td>24.86</td> </tr> </tbody> </table> <p>It is also uploaded on company website as part of compliance report. Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

(xii)	The slope of the embankment towards the river shall be at least 1:3 for stability and shall be stabilized with plantation using native species selected from the study area.	The washery is about 1.5 kms away from the Damodar River. Hence it is not applicable.
(xiii)	Top soil shall be stored in the earmarked area and used within a year of its generation for green belt development and for plantation/reclamation.	There are no top soil dumps hence it is not applicable.
(xiv)	No external OB dump shall be created for the expansion project. Monitoring and management of existing reclaimed dumpsites shall continue until the vegetation becomes self-sustaining. Compliance status shall be submitted to the Ministry of Environment & Forests and its respective Regional Office on yearly basis.	Not applicable as this is a washery project.
(xv)	Catch drains and siltation ponds of appropriate size shall be constructed to arrest silt and sediment flows from soil, OB and mineral dumps. The water so collected shall be utilised for watering the mine area, roads, green belt development, etc. The drains shall be regularly desilted and maintained properly.	There are no soil or OB dumps in the washery premises. Only the by-products are stored in the stockyards located in the washery premises which are sold off within a week.
(xvi)	Garland drains (size, gradient and length) and sump capacity shall be designed keeping 50% safety margin over and above the peak sudden rainfall and maximum discharge in the area adjoining the mine site. Sump capacity shall also provide adequate retention period to allow proper settling of silt material.	Garland drains of adequate size and gradient already exist around the washery area to channelize the surface runoff. The runoff is diverted to the tailing ponds and clear water is utilized in the washery. It is further strengthened under washery expansion jobs. Layout of surface runoff management system is provided as Annexure.
(xvii)	Dimension of the retaining wall at the toe of the dumps and OB benches within the mine to check run-off and siltation shall be based on the rainfall data.	Not applicable as we do not have any opencast mines.
(xviii)	Crushers at the CHP shall be operated	The following measures have been implemented:

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	with high efficiency bag filters/water sprinkling system shall be provided to check fugitive emissions from crushing operations, conveyor system which shall be closed, haulage roads, transfer points, etc.	<ul style="list-style-type: none"> i) Dry-fog system at all transfer points of CHP and further extension in expansion project. ii) Enclosures around crushers. iii) Belts have been covered on top and both sides. These arrangements will protect the coal mass moving on belt from blowing wind. In this way, the dust getting air borne is being minimized. iv) Fixed water sprinklers on the haulage roads. v) In addition, movable water sprinklers are also being deployed on the roads for dust suppression. vi) Dust Extraction System vii) Strengthening of tailing management system viii) Concretisation of working complex
(xix)	Drills shall be wet operated only.	Not applicable as this is coal beneficiation plant
(xx)	Controlled blasting shall be practiced with use of delay detonators and only during daytime. The mitigative measures for control of ground vibrations and to arrest the fly rocks and boulders shall be implemented.	Not applicable as this is coal beneficiation plant
(xxi)	The Washery shall be a zero-discharge and no wastewater shall be discharged from the washery into the drains/natural watercourses. No groundwater shall be used for washery operations. Recycled water shall be used for development and maintenance of green belt and in the plant operations.	Washery is already operating on a zero-discharge principle. No waste-water is discharged into the drains/ natural water systems. Only mine water is utilized for the washery operations as make up water requirement. The recycled water is again used for plant operations and green-belt development.
(xxii)	The raw coal, washed coal and middling and coal wastes (rejects) shall be stacked properly at earmarked site(s) within sheds/stockyards fitted with wind breakers/shields. Adequate measures shall be taken to ensure that the stored minerals do not catch fire. The storage period shall be not more than 2-3 days.	The material is being stacked properly at stockyards located within the washery. We have a well-established system for disposal of rejects/ tailings to consumers so that storage period is not more than 2-3 days.
(xxiii)	The proponent shall maintain proper records of the ash content of raw (ROM)	Proper records are already maintained and being uploaded on the company website.

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	coal, clean coal, middling and coal rejects along with quantum of raw coal obtained and washed and dispatched every month and the same shall be uploaded on the company website every month.	
(xxiv)	All internal roads shall be concreted or black topped and the approach roads used for the project shall be blacked topped. Facilities for parking of trucks carrying raw coal from the linked coalmines shall be created within the Unit.	All the internal roads have been concreted while the approach roads are black-topped. There is a facility for parking of trucks within the unit.
(xxv)	Roads used for coal transportation to the linked DRI/TPP shall be developed with 3-tier avenue plantation using a mix of native species. The trucks used for coal transportation shall be high capacity trucks. Drivers of trucks for coal transportation shall be engaged based on past records of road safety and compliance of safety regulations and shall be suitably sensitized about road safety and maintenance of vehicles to keep vehicular emissions to be within prescribed limits.	There is no linked DRI/TPP. - Raw coal is received via underground coal conveyor belt network and therefore no truck transportation of coal is involved. - Clean coal is dispatched via rail from the Rail-yard situated on the washery premises. The clean coal is kept in storage bins and directly transferred to the rail wagons through covered coal-conveying system. - As for the trucks moving within the washery, utilized for shifting of tailings and rejects to storage yard, all the given provisions related to road safety and driver competence are being strictly complied with.
(xxvi)	The roads (internal/approach and roads used for the project) shall be regularly cleaned with mechanical sweepers and with water sprinklers. A 3-tier avenue plantation shall be developed along the major approach roads, internal roads and nearby roads used by the company.	Fixed Water sprinklers have already been installed in the washery premises. Plantation along the road-side is done wherever feasible. A three-tier green belt will be developed along the boundary of washery during the next monsoon period as construction activity job is still going on.
(xxvii)	Green belt shall be developed along the areas such as the washery unit, crushing unit, and stockyards and at transfer points and in between mine operations and habitations.	Greenery has been developed in many areas around the washery premises. Saplings have been planted along the boundary of washery during this monsoon period for greenbelt development.
(xxviii)	Hoppers of the coal crushing unit at the crushing shed and washery unit shall be fitted with high efficiency bag filters/Dust	Dry-fog dust suppression system has been already installed to suppress the dust generated at CHP and transfer points of belt conveyor

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	extractors and mist spray water sprinkling system shall be installed and operated effectively at all times of operation to check fugitive emissions from crushing operations, transfer points of belt conveyor systems which shall be closed and from transportation roads.	systems. Fixed-type water sprinklers are also installed on the internal roads of the washery. These are always operated effectively to check the fugitive emissions. Fugitive dust emission monitoring is done on half-yearly basis. The values are within the stipulated norms.
(xxix)	The proponent shall ensure that coal such as stones, shale and other wastes of an ash content of 77% or more only shall be dumped into the mine voids. Coal rejects with an ash content of 76% or less shall be fully utilized for power generation in linked TPP.	It is being followed.
(xxx)	Regular monitoring of groundwater level and quality including levels of heavy metals such as Hg, Cd, Cr, Se, etc shall be carried out by establishing a network of existing wells and construction of new peizometers. The monitoring for quantity and quality of ground water as per IS: 10500 shall be done four times a year in pre-monsoon (May), monsoon (August), post-monsoon (November) and winter (January) seasons. Proper records of the data thus collected shall be maintained submitted to the Ministry of Environment & Forests and to the Central Pollution Control Board quarterly within one month of monitoring.	The monitoring of groundwater level and quality is done four times a year. The groundwater quality report & groundwater level for the pre-Monsoon (May) and Monsoon (August) are provided in Annexure II. The monitoring of heavy metals such as Hg, Cd, Cr, Se, etc in the groundwater is done on quarterly basis by NABL accredited third party and the report has been provided in Annexure-II.
(xxxi)	As the entire mine water is proposed to be used for the mine-cum-washery operations, measures shall be taken for recharging ground water in and around the mine in the study area. A Plan for water conservation and recharge measures of ground water along with budgetary provisions be prepared and implemented in consultation with the Central/State Ground Water Board to mitigate the adverse impact of mining which may lead to depletion of ground water in the area. The Company shall put	More than 50% of the water pumped out during underground mining activity is re-circulated back into the mine for the purpose of stowing. Backfilling of mine voids by stowing is done using sand which is having the porosity to hold the underground water thus helping aquifer to retain the underground water. Further, there are a number of ponds existing on the surface of the mining lease which act as natural reservoirs for recharging ground water. These ponds/ tanks are regularly cleaned and maintained by our CSR department. As per the hydro-geological report, the variation in the

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	<p>up artificial groundwater recharge measures for augmentation of groundwater resource in case monitoring of groundwater levels indicate decline of water table. Any additional water requirement for mining operation shall be met from rainwater use only. The project authorities shall meet water requirement of nearby village(s) in case the village wells go dry due to dewatering of mine.</p>	<p>ground water level is only seasonal. The water requirement of the nearby villages is being met by the company already. Now piped drinking water is being provided.</p>
(xxxii)	<p>ETP shall also be provided for treatment of effluents from workshop, CHP and an STP shall be provided in the colony and the treated effluents shall be used for green belt development. Outflow of rainfall, if any, from the mine shall meet prescribed norms and the water quality of such discharge including levels of heavy metals such as Hg, Cd, Cr., Se, etc shall be monitored at the exit points and records maintained thereof and also uploaded on the company website. Online monitoring equipment shall be installed by the proponent to ensure that the water quality parameters of mine water discharge are well within the General Discharge Standards under EP, Rules, 1986.</p>	<p>No effluent is discharged outside of the washery. There is no separate workshop in the washery premises. A central workshop exists in Jamadoba Colliery with Effluent Treatment Plant facility having Oil and Grease Trap. One Sewage Treatment Plant (STP) of 50 KLD and one ETP of 10 KLD has been installed in one of the colonies of Jamadoba and Jamadoba canteen. Their treated water is used for gardening and other purpose.</p>
(xxxiii)	<p>Besides carrying out regular periodic health check-up of their workers, 10% of the workers identified from workforce engaged in active mining operations shall be subjected to health check-up for occupational diseases and hearing impairment, if any, through a recognised agency found in the district, and the results reported to this Ministry and to DGMS.</p>	<p>Not applicable as this is coal beneficiation plant. Though PME is done for washery workers periodically at our Occupational Health centre. Records of the same has been furnished earlier.</p>
(xxxiv)	<p>For monitoring land use pattern and for post mining land use, a time series of land use maps, based on satellite imagery</p>	<p>Not applicable as there is no proposed changes in land use and land cover due to washery. Though, we have engaged a consultant for the study of</p>

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	(on a scale of 1: 5000) of the core zone and buffer zone, from the start of the project until end of mine life shall be prepared once in 3 years (for any one particular season which is consistent in the time series), and the report submitted to MOEF and its concerned Regional Office in the region.	land use. The final report is yet to come. Report of the same will be submitted in next compliance report.
(xxxv)	Land oustees shall be compensated as per the norms laid out R&R Policy of CIL or the National R&R Policy or R&R Policy of the State Government whichever is higher.	Not applicable
(xxxvi)	A Final Mine Closure Plan along with details of Corpus Fund shall be submitted to the Ministry of Environment & Forests five year before mine closure for approval. Habitat Restoration Plan of the mine area shall be carried out using a mix of native species found in the original ecosystem, which were conserved in-situ and ex-situ in an identified area within the lease for reintroduction in the mine during mine reclamation and at the post mining stage for habitat restoration and for development of grasslands.	Not applicable.
(xxxvii)	Corporate Environment Responsibility: a) The Company shall have a well laid down Environment Policy approved by the Board of Directors. b) The Environment Policy shall prescribe for standard operating process/procedures to bring into focus any infringements/deviation/violation of the environmental or forest norms/conditions. c) The hierarchical system or Administrative Order of the company to deal with environmental issues and for ensuring compliance with the environmental clearance conditions shall	The Company already has an Environment Policy approved by the Managing Director and it addresses all the issues mentioned. Tata Steel Environmental Policy is attached as Annexure-IV. The status of adherence to the policy and compliance to Environmental laws and regulations is regularly discussed at higher levels. Any non-compliance noticed is corrected at divisional level. If any issue is beyond our control, it is brought to the notice of higher management. Moreover, Jamadoba Coal Washery is IMS (Integrated Management System: Quality

	and scope of working shall be made without prior approval of the Ministry of Environment and Forests.	followed.
(ii)	No change in the calendar plan of production for quantum of mineral coal shall be made.	It will be strictly followed.
(iii)	Four ambient air quality monitoring stations shall be established in the core zone as well as in the buffer zone for PM10, PM2.5, SO2 and NOx monitoring. Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets in consultation with the State Pollution Control Board. Monitoring of heavy metals such as Hg, As, Ni, Cd, Cr, etc carried out at least once in six months.	The Air quality monitoring stations are: (i) Jamadoba Group Office (Core Zone) (ii) New Village Colony, Jamadoba (Buffer Zone) (iii) Digwadiah 12 No. Colony (Buffer Zone) (iv) 6&7 Pits Kalimandir area (Buffer Zone) Monitoring of heavy metals in ambient air is being performed by an independent laboratory (recognised by NABL and MoEFCC) once in six months. The results are enclosed as Annexure-II.
(iv)	Data on ambient air quality (PM10, PM 2.5, SO2 and NOx) and heavy metals such as Hg, As, Ni, Cd, Cr and other monitoring data shall be regularly submitted to the Ministry including its concerned Regional Office and to the State Pollution Control Board and the Central Pollution Control Board once in six months. Random verification of samples through analysis from independent laboratories recognized under the EPA rules, 1986 shall be furnished as part of compliance report.	Ambient air quality report (PM10, PM 2.5, SO2 and NOx) for the period from Apr'19 to Sept'19 is attached as Annexure-II. Additionally, M/s Ecomen Laboratories Pvt. Ltd (an MoEFCC and NABL recognised Laboratory) has done monitoring on ambient air quality (PM10, PM 2.5, SO2, NOx, CO, NH3, O3) and heavy metals (As, Ni, Cd and Cr) in the month of Aug'19. The results are enclosed as Annexure-II.

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	and wastewater from the mine) shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May 1993 and 31st December 1993 or as amended from time to time before discharge. Oil and grease trap shall be installed before discharge of workshop effluents.	premises. 100% water is recirculated back for re-use in the washery. There is a central workshop and garage in Jamadoba Effluent Treatment Plant which includes oil and grease trap has been provided.
(vii)	Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transporting the mineral shall be covered with tarpaulins and optimally loaded.	Only the vehicles having valid PUC certificates are being allowed to operate. Coal transportation through trucks is done only from BCCL mines till washery and it is ensured that only optimally loaded trucks with proper tarpaulin cover are allowed into the washery premises.
(viii)	Monitoring of environmental quality parameters shall be carried out through establishment of adequate number and type of pollution monitoring and analysis equipment in consultation with SPCB and data got analysed through a laboratory recognized under EP Rules, 1986.	We have a fully equipped Environment Cell Laboratory with qualified personnel. Laboratory has been recognized and registered with the Jharkhand State Pollution Control Board vide letter ref no. B-3922, dated-30.08.2012. The monitoring and analysis is also done at regular intervals by M/s Ecomen Laboratories Pvt. Ltd., an MoEF recognised laboratory (vide its notification 25.07.2018). We have also installed a Continuous Ambient Air Quality Monitoring Station at Jamadoba for real time monitoring.
(ix)	Personnel working in dusty areas shall wear protective respiratory devices and they shall also be provided with adequate training and information on safety and health aspects.	Persons working in dusty area have been provided with dust masks & have been given awareness training on safety & health aspects. Regular PME (Periodic Medical Examinations) are being done.
(x)	Occupational health surveillance programme of the workers shall be undertaken periodically to observe any contractions due to exposure to dust and to take corrective measures, if needed and records maintained thereof. The quality of environment due to outsourcing and the health and safety issues of the outsourced manpower should be addressed by the company while outsourcing.	The occupational health surveillance programme of the workers is done regularly by our Occupational Health Department, Tata Central Hospital, Jamadoba. We have a PME (Periodic Medical Examination) centre approved by DGMS where annually 20% of the workers identified from workforce engaged in active mining operations are subjected to full medical checkup including hearing impairment checkup, etc. These results are regularly submitted to DGMS as per mines rules. Contractual workers health examination is also done by PME centre.

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

(xi)	A separate environmental management cell with suitable qualified personnel shall be set up under the control of a Senior Executive, who will report directly to the Head of the company.	We have a separate Environmental Management Cell with four qualified personnel (One Head and Two Senior Managers and One Manager). The reporting of Environmental Cell is directly to General Manager of the Division.																																	
(xii)	The funds earmarked for environmental protection measures shall be kept in separate account and shall not be diverted for other purpose. Year-wise expenditure shall be reported to this Ministry and its Regional Office at Bhubaneswar.	<p>The Environment Cell has a separate fund for Environmental protection measures and for complying with legal requirements. The annual environmental expenditure for the financial year 2018-19 is Rs. 146.55 lakhs. The details are given below-</p> <table border="1" data-bbox="732 709 1344 1283"> <thead> <tr> <th>S. (xiii)	The Project authorities shall advertise at least in two local newspapers widely circulated around the project, one of which shall be in the vernacular language of the locality concerned within seven days of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution control Board and may also be seen at the website of the ministry of	It has been complied with. Details are provided in Annexure-V.																																	

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	Environment & Forests at http://envfor.nic.in .	
(xiv)	A copy of the environmental clearance letter shall be marked to concerned Panchayat/Zila Parishad, Municipal Corporation or Urban Local Body and local NGO, if any, from whom any suggestion/representation has been received while processing the proposal. A copy of the clearance letter shall also be displayed on the company's website.	It has been complied with. Details are provided in Annexure-V.
(xv)	A copy of the clearance letter shall be displayed on the website of the concerned State Pollution Control Board. The EC letter shall also be displayed at the Regional Office, District Industry Centre and Collector's Office/Tehsildar's Office for 30 days.	It has been complied with.
(xvi)	The clearance letter shall be uploaded on the company's website. The compliance status of the stipulated EC conditions shall also be uploaded by the project authorities on their website and updated at least once every six months so as to bring the same in the public domain. The monitoring data of environmental quality parameters (air, water, noise and soil) and critical pollutants such as PM10, PM2.5, SO2 and NOx (ambient and stack if any) and critical sectoral parameters shall also be displayed at the entrance of the project premises and mines office and in corporate office and on the company's website.	The clearance letter has been uploaded on the company's website. The compliance status (as Half-yearly compliance report) is being uploaded in company's website (Enclosed as Annexure-III). The display of information near the washery's office has been provided.

Compliance status of Expansion of Jamadoba Coal washery (1 MTPA to 2 MTPA in 7 ha Area) of M/s Tata Steel Ltd. Tehsil Jharia, dist. Dhanbad, Jharkhand vide MoEFCC Letter no J-11015/203/2011-IA.II (M) dated March 3, 2014

	and in corporate office and on the company's website.	
(xvii)	The project proponent shall submit six monthly reports on the status of compliance of the stipulated environmental clearance conditions (both in hard copy and in e-mail) to the respective Regional Office of the MOEF, the respective Zonal offices of CPCB and the SPCB.	It has been complied with.
(xviii)	The Regional Office of this Ministry located at Bhopal shall monitor compliance of the stipulated conditions. The Project authorities shall extend full cooperation to the office(s) of the Regional Office by furnishing the requisite data/information/monitoring reports.	It will be complied with.
(xix)	The environmental statement for each financial year ending 31st March in Form-V is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be uploaded on the company's website along with the status of compliance of EC conditions and shall be sent to the respective Regional Offices of the MOEF by E-mail.	The environmental statement for financial year 2018-19 has been submitted to JSPCB on 23rd September 2019 and it is also uploaded on the company website (Annexure- III). The soft copy of Environment Statement is also sent to MOEF by email at ro.ranchi-mef@gov.in.

Tata Steel Limited,
Jharia Division

Annexure- I Greenbelt Development Report

Green belt developed around JCPP is given in the pictures below. Plantation in this monsoon has been done in JCPP to enhance the green belt. The plantations are done in areas in front of MCC building, and near the boundary wall of JCPP to enhance the green cover around the operational areas of washery. Since the washery is in construction phase, three tier plantation has been done in some patches around the boundary wall of the washery premises. Once the washery starts to operate, further plantation will be taken up.

Picture: Existing Green Belt around JCPP

Photographs of some recent plantation activities in this monsoon season are shown below:

Picture: Plantation in area in front of MCC building(JCPP) during this monsoon season.

Picture: Plantation around some patches of the boundary wall of washery (JCPP) during this monsoon season.

Upload of compliance report on company's website

The screenshot shows a web browser window with the URL tatasteel.com/sustainability/environment-compliance-reports/. The page title is "Environment Compliance Reports" and the main heading is "of Apr 2018 to Sep 2018". The Tata Steel logo and tagline "We Also Make Tomorrow" are visible. The breadcrumb trail is "Sustainability > Environment Compliance Reports". The page lists several reports, with the following text highlighted in a black box:

- Half Yearly EC Compliance Report of Mahal Saharjuri Oct 18 to Mar 19
- Half Yearly EC Compliance Report of Preamsinghdih Oct 18 to Mar 19
- Half Yearly EC Compliance Report of OCP Kalimela Oct 18 to Mar 19
- Half Yearly EC Compliance Report of Lagla Mahal Oct 18 to Mar 19
- Half Yearly EC Compliance Report of Jamadoba Coal Washery Oct 18 to Mar 19**
- Half Yearly EC Compliance Report of BAC and BCPP Oct 18 to Mar 19

The screenshot shows a web browser window with the URL tatasteel.com/sustainability/environment-compliance-reports/. The page title is "Environment Compliance Reports" and the main heading is "Environmental Statement for Sijua Colliery for FY 2018-19". The Tata Steel logo and tagline "We Also Make Tomorrow" are visible. The breadcrumb trail is "Sustainability > Environment Compliance Reports". The page lists several environmental statements, with the following text highlighted in a black box:

- Environmental Statement for 6&7 Pits Colliery for FY 2018-19
- Environmental Statement for Bhelatand A. Colliery for FY 2018-19
- Environmental Statement for Bhelatand Coal Washery for FY 2018-19
- Environmental Statement for Digwadidh Colliery for FY 2018-19
- Environmental Statement for Jamadoba Coal Washery for FY 2018-19**
- Environmental Statement for Jamadoba Colliery for FY 2018-19

ENVIRONMENTAL POLICY

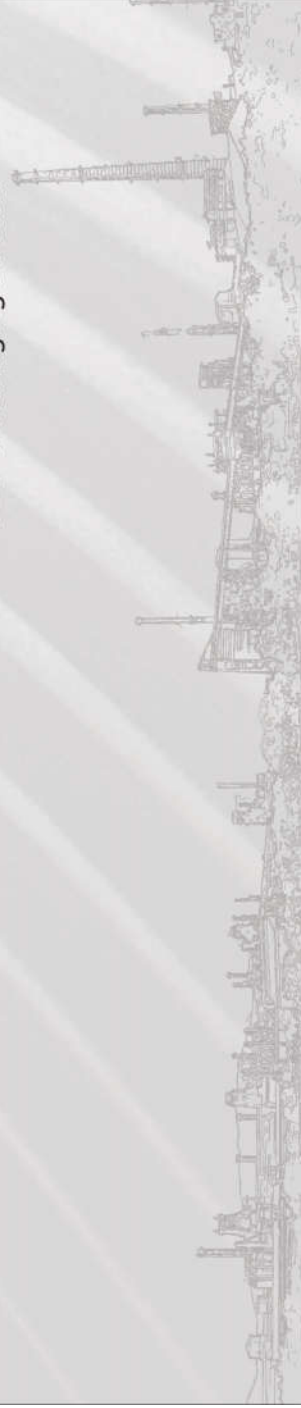

Tata Steel's environmental responsibilities are driven by our commitment to preserve the environment and are integral to the way we do business.

1. We are committed to deal proactively with Climate Change issue by efficient use of natural resources & energy; reducing and preventing pollution; promoting waste avoidance and recycling measures; and product stewardship.
 - We shall identify, assess and manage our environment impact.
 - We shall regularly monitor, review and report publicly our environmental performance.
 - We shall develop & rehabilitate abandoned sites through afforestation and landscaping and shall protect and preserve the biodiversity in the areas of our operations.
 - We shall enhance awareness, skill and competence of our employees and contractors so as to enable them to demonstrate their involvement, responsibility and accountability for sound environmental performance.
2. We are committed to continual improvement in our environmental performance.
 - We shall set objective-targets, develop, implement and maintain management standards and systems, and go beyond compliance of the relevant industry standards, legal and other requirements.
3. We will truly succeed when we sustain our environmental achievement and are valued by the communities in which we work.

Sub: Submission of copy of Environmental Clearance granted to units of M/s Tata Steel Limited

Dear Sir,

Please find enclosed the letter of Environmental Clearance (EC) granted by MoEFCC to various units of Tata Steel Limited, Jharia Division, Dhanbad as per the following details-

1. Digwadih Colliery (for expansion from 0.38 MTPA to 0.6 MTPA in ML area 314.57 ha), dist. Dhanbad, Jharkhand.
2. 6 & 7 Pits Colliery (for expansion from 0.28 MTPA to 0.6 MTPA in ML area 168.12 ha), dist. Dhanbad, Jharkhand.
3. Jamadoba Coal Washery (for expansion from 1 MTPA to 2 MTPA in 7 Ha area), dist. Dhanbad, Jharkhand.

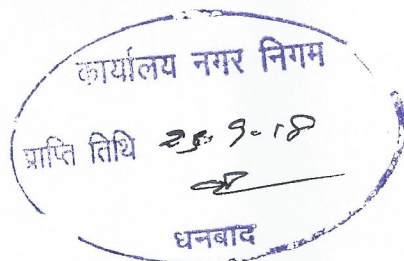

The copy of EC letter and its compliance is also uploaded in website (<http://www.tatasteel.com/sustainability/environment-compliance-reports/>) for your kind perusal.

Thanking You,

Yours faithfully,

Head, Planning
Jharia Division

Activities under Corporate Social Responsibility-

Training

- Training on System of Rice Intensification (SRI)- 211 farmers adopted SRI cultivation out of 278 trained in FY16
- Training on Second Cropping, Field based training on 2nd Cropping, Pisciculture Promotion (Expenditure around Rs 0.87 Laks out of which total income by the farmers were raised by Rs16Laks)

New Enterprise by SHGs

- Candle making unit by Pragya Mahila Samiti, Sarguja
- Mushroom Cultivation by Gramin Mahila Shayog Samiti, a SHG of Sokohkulih village
- Duck Rearing by Pragya Mahila Swayam Sahayata Samiti "SHG" of Sirguja Village and Shiv Guru Mahila samiti, Upper Dungri village, Harijan Tola
- Tailoring Shop by Jai Maa Gramin Mahila Samity in Bhelatand
- Total Savings by SHGs is Rs11.90 Laks by 35 SHGs

Employability Training

- 13 students are supported in ITC Tamar
- 14 students in House Keeping Training in Kolabera
- 50 people trained in driving training

Health

- 4 multi specialty health camps organized in which 2797 cases were treated

Education

- 225 students received Jyoti Fellowship out of which 54 were new.
- In the reporting period 2668 students received support in 15 PMC
- 60 students received support through our Asha Ki Kiran center

Infrastructure Development

- PCC road, Sewage drains, construction of new Community Halls/ Sheds, Renovation of comm. Halls and sheds, Renovation of old Ponds, Construction of new Ponds, Construction of sitting Platforms

Monthly inspection and monitoring of sand lease by Monitoring committee comprises of executives from Environment, Survey, Local Villagers, Transporters, Mining

Multi Specialised Health Camp organised at Ichhar High School, Raghunathpur

Multi Specialized health camp was held on 29th June '17 at Ichhar High School, Raghunathpur Block -2 at Purulia . Around 897 patients benefitted from the camp; 442 females and 455 males were attended by a special team of Specialist Doctors from Tata Central Hospital, Jamadoba. Free consultations and Health check-ups were provided in Medicine, Gynaecology, E.N.T., Paediatrics, Homeopathy, Dermatology, Dental, Orthopaedics and Pathology. A day long Specialized health camp was conducted where free medicines were also provided.

DETAIL LAYOUT FOR STORM WATER DRAINAGE SYSTEM

TATA
TATA CONSULTING ENGINEERS LTD.
ISSUED FOR CONSTRUCTION
 18-02-2017
 Date..... Signature.....

- NOTES:**
1. ALL DIMENSIONS ARE IN MILLIMETER, LEVEL & CO-ORDINATES ARE IN METERS UNLESS OTHERWISE STATED.
 2. THIS DRAWING HAS BEEN PREPARED BASED ON THE PLANT GENERAL LAYOUT DRG.NO: TCE.7840A-670-GA-1001.
 3. THE SCHEME SHOWN IN THE DRAWING HAS BEEN PREPARED BASED ON THE "RECORD NOTES OF DISCUSSION OF JAMADOBA MAIN PLANT HELD ON 23-05-2016 & 26-05-2016 & 31-05-2016 AT CHIEF RMPP OFFICE IN JAMSHEDPUR".
 4. ALL THE RAIN WATER FROM NEW 2MTPA BENEFICIATION PLANT AREA SHALL BE ROUTED TO SETTLING PIT THROUGH STORM WATER DRAIN. THE PIT SHALL BE GUARDED SUITABLY TO PREVENT UNAUTHORIZED HUMAN OR ANIMAL ENTRY.
 5. ALL THE GARLAND DRAINS AROUND THE BUILDINGS / FACILITIES SHALL BE CONNECTED TO STORM WATER DRAIN
 6. FLOCCULENT DOSING SYSTEM SHALL BE INSTALLED TO INCREASE SETTLING VELOCITY OF COAL PARTICLES. CLEAR WATER FROM SETTLING PIT SHALL BE PUMPED BACK FOR PROCESS USE.
 7. IN SPECIAL CASE (LIKE HEAVY RAIN, BREAKDOWN OF DOSING SYSTEM) OUTLET OF TANK SHALL BE CONNECTED TO EXISTING DRAIN THAT IS PRESENTLY ROUTED TO EXISTING SETTLING POND AND APPROPRIATE ACTION WOULD BE TAKEN.
 8. FOR RC DETAILS & CHART PLEASE REF. DRG. NO:TCE.TCE.7840A-670-GA-6198 & TCE.7840A-670-GA-6196.
 9. BEFORE CONSTRUCTION OF PROPOSED DRAIN, PIPE & MANHOLE THE FINISHED/EXISTING GROUND LEVEL SHOULD BE CHECKED, TO VERIFY THE DRAIN TOP LEVEL AS IT SHOULD MATCH WITH THE FINISHED/EXISTING GROUND LEVEL. IF ANY DISCREPANCY FOUND WITH THE LEVELS GIVEN IN THIS DRAWING, IT SHOULD BE INFORMED BEFORE CONSTRUCTION WORK.
 10. WHEREVER TOP LEVEL OF DRAIN IS ABOVE GROUND LEVEL OR ROAD EDGE LEVEL BY MORE THAN 50MM, CUTOUT SHALL HAVE TO BE PROVIDED ON BOTH SIDE OF THE DRAIN OF 100 MM WIDE AND DEPTH WILL BE REQUIRED FROM THE DRAIN TOP UPTO ROAD LEVEL/GROUND LEVEL AT 1500MM INTERVALS. THIS IS REQUIRED TO HAVE FLOW OF WATER FROM ROAD AND SURROUNDING GROUND INTO THE DRAIN.

- LEGEND**
