

TSM/MoEF&CC/BS-01/2023-03/394

November 30, 2023

The Deputy Director General of Forests (C)

Ministry of Environment, Forest and Climate Change,
Integrated Regional Office,
A/3, Chandersekharpur,
Bhubaneswar-751023

Subject: Half yearly EC compliance reports of 5.6, 3.1 and 1.5 MTPA capacity of integrated steel plant of Tata Steel Limited, Meramandali for the period April'23 to Sept'23.

Reference: I. EC vide letters no.J-11011/829/2008-IA-II (I), dated 20.07.2012 of 5.6 MTPA
II. EC vide letters no J-11011/405/2007-IA-II (I), dated 22.09.2008 of 3.1 MTPA
III. EC vide letters no.J-11011/8/2005-IA-II (I), dated 29.06.2005 of 1.5 MTPA

Dear Sir,

This has reference to the captioned subject and cited references. It is to inform that we are herewith submitting six monthly compliance reports for the conditions stipulated in the Environment Clearance of 5.6, 3.1 and 1.5 MTPA Integrated Steel Plant of Tata Steel Ltd., Meramandali for the period from April 2023 to September 2023 along with monitoring report for your kind consideration.

The copy of above compliance report is also being sent in soft format through email (roez.bsr-mef@nic.in) for your kind perusal. Also copy of 5.6 MTPA, 3.1 MTPA and 1.5 MTPA EC compliance is being uploaded on MoEF&CC website on portal <http://environmentalclearance.nic.in>.

Hope the above are in line with the statutory requirements.

Thanking you,

Yours faithfully,

For Tata Steel Limited

Anoop Srivastava
Chief Environment

| | the nallah shall be shifted and the area should be developed into garden for public use. | <ul style="list-style-type: none"> A drop gate has been provided on the main road beyond nallah to control traffic. |
| x | Water requirement for expansion from River Brahmani shall not exceed 3,400m ³ /hr. All the effluent should be treated and used for ash handling, dust suppression and green belt development. No effluent shall be discharged and 'zero discharge' shall be adopted. Sanitary sewage should be treated in septic tank followed by soak pit for treatment of effluent run-off from the coal washery area, settling pond shall be de-silted regularly and additional settling tank shall be constructed. | <ul style="list-style-type: none"> Freshwater consumption during the period Apr'23 to Sep'23 for the Steel plant is 3081m³/hr. All effluents are being treated in primary treatment plants (19 nos.) in steel plant attached with respective units and Effluent Treatment Plants (3 nos.) centrally. Treated effluent is being reused for dust suppression, ash handling, make up for DRI and green area development. Process effluent after treatment is being reused. During the period Apr'23 to Sep'23, 2975753 m³ of treated water has been recycled. However, we are further improving the efficiency of the water management system by technology intervention to increase the utilization. The sanitary sewage is being treated in 4Nos. of Sewage Treatment Plant and used for green belt development and low-end application in plant. Rainwater harvesting pond of capacity 50000 m³ with HDPE liner has been constructed to store & reuse rainwater. Zero Effluent Discharge (ZED) project is under construction stage and will be implemented by March 2024. |
| xi | Efforts shall be made to make use of rain water harvested. If needed, capacity of the reservoir should be enhanced to meet the maximum water requirement. Only balance water requirement shall be met from other sources. | <ul style="list-style-type: none"> Lagoons and HDPE pond have been constructed to harvest rainwater. This water is reused in the process when required. During the period Apr'23 to Sep'23, 53865 m³ of rainwater has been utilized in process. Surface runoff water collected from DRI & RMHS area are channelized through drains into a series of storage pond for harvesting. |
| xii | Regular monitoring of influent and effluent, surface, sub-surface and ground water (including chromite) should be ensured and treated wastewater should meet the norms prescribed by the State Pollution Control | <ul style="list-style-type: none"> Monitoring of influent, effluent, surface and groundwater quality is being carried out regularly in Environment laboratory which has been accredited by NABL vide |

| i | Efforts shall be made to reduce RSPM levels in the ambient air and a time bound action plan shall be submitted. Online ambient air quality monitoring and continuous stack monitoring facilities for all the stacks and sufficient air pollution control devices like ESP and Bag house etc. shall be provided to keep the emission levels below 100 mg/Nm ³ . Bag filters should be provided to the induction furnace to control the particulate emission below 100 mg/Nm ³ . Inter-locking system shall be provided to ESP's. Monitoring reports shall be submitted to the Ministry's Regional office at BBSR, CPCB, and OPCB on six monthly basis. | <ul style="list-style-type: none"> • 55 nos. of bag filter, 27 nos. of ESP have been installed with each operating unit to reduce particulate matter levels in ambient air. Details list of pollution control devices is enclosed as Annexure-I. • 20 nos. online CEMS w.r.t gas and 39 nos. online CEMS w.r.t dust have been installed and operated continuously. • To monitor the ambient air quality, we have installed 7 numbers of Continuous Ambient Air Quality Monitoring Stations (CAAQMS) in the entire complex of Tata Steel Limited in consultation with SPCB, Odisha. • Six monthly monitoring report is being submitted regularly to MoEF&CC, CPCB and SPCB. • During FY21, detail analysis was done on the various point sources, line sources & area sources & implemented various improvement project e.g. installation of new technology power supply controller at Sinter plant (HFTR- High frequency transformer rectifier in process ESP & Micro pulse in dedusting ESP of sinter plant is the first of its kind technology application in ESP). |
| ii | Electrostatic precipitators (ESP's) to DRI plant, waste heat recovery boiler (WHRB) and fluidized bed boiler (FBB) and bag house to blast furnace (BF) shall be provided to control gaseous emission within 100 mg/Nm ³ . The gases from the DRI Kilns and BF after recovery of heat in WHRB shall be passed through ESP to control gaseous emissions. Smoke hood and fume extraction system with cyclone and bag filters should be provided to IF, LRF and CCM to keep the dust in work zone environment within the permissible limit. Cyclone and bag filters shall be provided to SMS. | <p>Following facilities have been installed to control dust emissions:</p> <p>DRI & WHRB:</p> <ul style="list-style-type: none"> • The Plant has installed 10 nos. of DRI Kiln of 500 TPD each with WHRB system connected to 10 nos. of ESP at the hot end of the DRI Kiln and 5 nos. of De-dusting system at the cold end of the DRI kiln. <p>BLAST FURNACE:</p> <ul style="list-style-type: none"> • Two nos. of bag filter have been installed in Cast House and stock house. To keep the emission well within the norms. |

|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| iv | <p>At least four ambient air quality monitoring stations shall be established in the downward direction as well as where maximum ground level concentration of PM10, SO2 and NOx are anticipated in consultation with the SPCB. Data on ambient air quality and stack emission shall be regularly submitted to this Ministry including its Regional Office at Bhubaneswar and the SPCB/CPCB once in six months.</p> | <ul style="list-style-type: none"> Seven CAAQM stations have been established in consultation with the SPCB in Tata Steel Meramandali complex. Half yearly reports are being submitted to the Regional Office of MoEF&CC, SPCB and CPCB at regular intervals. Summary of AAQ monitoring report is attached as Annexure-X. The last half yearly compliance report was submitted vide letter no. TSM/MoEF&CC/BS-01/2023-02/344 dated 31.05.2023. |
| v | <p>In-plant control measures for checking fugitive emissions from all the vulnerable sources shall be provided. Further, specific measures like water sprinkling around the coal stock piles and asphalting or concreting of the roads shall be done to control fugitive emission.</p> | <p>To have a control on fugitive emissions, following measures have taken:</p> <ul style="list-style-type: none"> Bag filters have been installed at various junction houses. Continuous sprinkling of water is being done around the coal stockpiles. Water sprinkling arrangement has been made by installation of 128 numbers of rotary gun sprinklers at raw material handling areas to control dust emissions during loading and unloading of raw materials at site. Construction of Paved Quality Concrete (PQC) roads are being made within the plant premises and is being cleaned and maintained through mechanized housekeeping systems. Periodical water sprinkling on all the internal roads within the plant premises is being done as per the planned schedule. Double lip seals with dual sealing system have been installed. Installed dust collector system in conveyor line. |
| vi | <p>Industrial waste water shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended form time to time. The treated waste water shall be utilized for plantation purpose.</p> | <ul style="list-style-type: none"> The industrial as well as domestic wastewater is being treated and utilized for various purposes like slag quenching, coke quenching, dust suppression and green belt development inside the plant premises. The monitoring reports of Industrial wastewater are being submitted to |

Compliance Status of Environmental Clearance of Expansion of Integrated Steel Plant (1.5 MTPA to 3.1 MTPA at Tata Steel Works, Meramandali, District Dhenkanal, Odisha vide MoEF&CC Letter nos. J-11011/829/2008-IA-II (I) dated 27.09.2008.

| | | |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | SPCB/CPCB/MOEF&CC at regular intervals. |
| vii | The overall noise levels in and around the plant area shall be kept well within the standards 85 dB(A) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels should conform to the standards prescribed under EPA Rules, 1989 viz. 75 dB (A) (daytime) and 70 dB (A) (night time). | <ul style="list-style-type: none"> • Acoustic hoods, silencers, enclosures etc. on all sources of noise generation have been provided. Work zone noise monitoring is being carried out and record is being maintained. • A report of ambient noise levels recorded within the premises is enclosed as Annexure-XI. |
| viii | Occupational health surveillance of the workers should be done on a regular basis and records maintained as per the Factories Act. | <ul style="list-style-type: none"> • Occupational health surveillance of the workers is being periodically done. PME once in a year, Food handler test : Once in a year. • Necessary PPEs are provided to all the employees including the contractual workers. |
| ix | The company shall develop surface rain water harvesting structures to harvest the rain water for utilization in the lean season besides recharging the ground water table. | <ul style="list-style-type: none"> • Lagoons and HDPE pond have been constructed to harvest rainwater. This water is reused in the process when required. During the period Apr'23 to Sep'23, 53865 m³ of rainwater has been utilized in process. • RWH potential has been studied by engaging an expert agency & the suggested projects are being implemented in phases. In the first phase 50000 m³ capacity storage pond has been constructed in the year 2021. Also, rainwater collected from DRI & RMHS area are channelized through drains into a series of storage pond (3 nos lagoons are in operation). |
| x | The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA/EMP report. Further, the company must undertake socio-economic development activities in the surrounding villages like community development programmes, educational programmes, drinking water supply and health care etc. | <ul style="list-style-type: none"> • Compliance with all environmental protection measures as recommended in EIA / EMP report is ensured. • Various socio-economic development programs covering education, safe drinking water, sports and health care etc are undertaken in nearby villages. • A detailed breakup of CSR initiatives is enclosed as Annexure- IX. |

Compliance Status of Environmental Clearance of Expansion of Integrated Steel Plant (1.5 MTPA to 3.1 MTPA at Tata Steel Works, Meramandali, District Dhenkanal, Odisha vide MoEF&CC Letter nos. J-11011/829/2008-IA-II (I) dated 27.09.2008.

| xi | <p>The adequate funds shall be earmarked towards capital cost and recurring cost / annum for environment pollution control measures to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government. The funds so provided shall not be diverted for any other purpose.</p> | <ul style="list-style-type: none"> Adequate funds are being provided by the management for pollution control and to meet recurring costs. Environmental requirements are given top priority for fund allocation and approval of capital projects. The funds earmarked for environment pollution control measures are not diverted for any other purpose. The company has invested adequate capital expenditure to improve mix of clean power & also reduction of carbon emissions. |
| xii | <p>The Regional Office of this Ministry at Bhubaneswar / CPCB/ OPCB shall monitor the stipulated conditions. A six monthly compliance report and the monitored data along with statistical interpretation shall be submitted to them regularly.</p> | <ul style="list-style-type: none"> The half yearly compliance report is being submitted to the Regional Office of the MoEF&CC, CPCB and SPCB. The last half yearly compliance report was submitted vide our letter no. TSM/MoEF&CC/BS-01/2023-02/344 dated 31.05.2023. |
| xiii | <p>The Project Proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB and may also be seen at Website of the Ministry of Environment and Forests at http://envfor.nic.in. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same should be forwarded to the Regional office at Bhubaneswar.</p> | <ul style="list-style-type: none"> The advertisement was published in both Odia & English newspapers named "The Sambad" and "The New Indian Express" respectively. The same has already been communicated to the Regional Office of MOEF&CC, Bhubaneswar vide letter no. BSL/ENV/10/08 dated 17.10.2008. |
| xiv | <p>Project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work.</p> | <ul style="list-style-type: none"> Project was completed and in operation. Consent to Operate was granted vide letter no. 4463/IND-I-CON-5440 dated 23.03.2023. |

Compliance Status of Environmental Clearance of Expansion of Integrated Steel Plant (1.5 MTPA to 3.1 MTPA at Tata Steel Works, Meramandali, District Dhenkanal, Odisha vide MoEF&CC Letter nos. J-11011/829/2008-IA-II (I) dated 29.06.2005.

SPECIFIC CONDITIONS:

| SL | CONDITIONS | COMPLIANCE STATUS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| i | The gaseous emissions from various process units shall conform to the load/mass based standards notified by the Ministry on 19th May, 1993 and standards prescribed from time to time. The state board may specify more stringent standards for the parameters keeping in the view the nature of the industry and its size and location. At no time the emission level should go beyond the prescribed standards. In the event of failure of any pollution control system adopted by the unit, the respective unit should not be restarted until the control measures are rectified to achieve the desired efficiency. | <ul style="list-style-type: none"> • 55 nos. of bag filter, 27 nos. of ESP have been installed with each operating unit to reduce particulate matter levels in ambient air. Details list of pollution control devices is enclosed as Annexure-I. • Results of gaseous emission levels from various stacks conform to the standards and details are enclosed as Annexure-II. • 9 Nos. of Mechanized road sweepers have been deployed to clean all concrete roads, and shop floors of individual units. • Water tankers have been deployed for water sprinkling whenever it is required. • Due to all these latest and most efficient air pollution control measures, ambient air quality in the complex is as per the AAQ standard. • 20 numbers of online gas analyzers for gaseous parameters have been provided on stacks. • 39 numbers of online dust monitors have also been installed and commissioned at the stacks. • To monitor the ambient air quality, we have installed 7 numbers of Continuous Ambient Air Quality Monitoring Stations (CAAQMS) in the entire complex of Tata Steel Limited in consultation with SPCB, Odisha. |
| ii | There shall be no discharge of process effluent. As reflected in the EIA/EMP report, the company shall undertake water conservation measures by recycling the water from the gas cleaning plant and cooling tower blow down. The plant design shall be base on 100% recirculation system to achieve zero discharge. The domestic waste water after treatment in STP shall be used for green belt development. | <ul style="list-style-type: none"> • Rate of water consumption during the period Apr'23 to Sep'23 water consumption for the Steel plant was 3081.24 m³/hr. • All effluents are being treated in primary treatment plants (19 nos.) in steel plant attached with respective units and Effluent Treatment Plants (3 nos.) centrally. • Treated water is being reused for dust suppression, ash handling, make up for DRI and for green area development. |

Compliance Status of Environmental Clearance of Expansion of Integrated Steel Plant (1.5 MTPA to 3.1 MTPA at Tata Steel Works, Meramandali, District Dhenkanal, Odisha vide MoEF&CC Letter nos. J-11011/829/2008-IA-II (I) dated 29.06.2005.

| | |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | <ul style="list-style-type: none"> Process effluent after treatment is being reused. During the period Apr'23 to Sep'23, 2975753 m³ of water has been recycled. However, we are further improving the efficiency of the water management system by technology intervention to increase the utilization. The sanitary sewage is being treated in 4 Sewage Treatment Plants and used for green belt development and low-end application in plant. Rainwater harvesting of capacity 50000m³ with HDPE liner has been constructed to store & reuse rainwater. Zero Effluent Discharge (ZED) project will be implemented by March 2024. |
| iii | <p>In plant control measures for checking fugitive emissions from spillage/raw materials handling shall be provided. Further specific measures like provisions of dust extraction & dust suppression system for product & raw materials handling, conveyor transfer points, water sprinkling system at waste disposal area to control the fugitive emissions shall be provided. Data on fugitive emission shall be regularly monitored & records maintained.</p> <ul style="list-style-type: none"> Two Bag filter, adequate no. of Dry Fog Dust Suppression System (DFDS) and Single Fluid Dedusting System (SFDS) have been provided at the coal circuit. Dust suppression system have been provided in the iron ore circuit at crushing and screening points of raw material handling areas. Pneumatic dust handling system has been provided at ESP hoppers in the Sinter Plant-I. Chain conveyor dust handling system has been provided at ESP hoppers of sinter plants II and III. 242 numbers of nozzles in dry fog dust suppression system have been provided at junction houses of raw material handling area. Further, 128 nos. of rotary gun sprinklers have been installed throughout the raw material handling yards. Mechanized road sweepers have been deployed for dry sweeping on roads and shop floors. Regular monitoring of fugitive emission is carried out and report being submitted. |

Compliance Status of Environmental Clearance of Expansion of Integrated Steel Plant (1.5 MTPA to 3.1 MTPA at Tata Steel Works, Meramandali, District Dhenkanal, Odisha vide MoEF&CC Letter nos. J-11011/829/2008-IA-II (I) dated 29.06.2005.

| | | |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | <ul style="list-style-type: none"> To improve AQI further, the company is analyzing the various point sources, line sources & area sources & continuously working to reduce workplace emission by standardizing maintenance practices, adopting new technology (HFTR, MFTR, Mist Gun water sprinklers, Portable Donaldson Dust extraction system) & also installation new dust extraction system wherever required. |
| iv | The company shall use gas from the DRI for power generation & blast furnace gas for BF Stoves, sinter plant & furnace heating. The exhaust gas from the kiln shall be cleaned by dry gas cleaning system. The waste gas shall be passed through dust settling chamber to settle the coarse dust particulate & post combustion chamber to burn the CO in the flue gas. The boiler shall utilize the waste heat for steam generation. The particulate emissions shall be controlled by installation of ESP & the particulate emissions shall not exceed 100 mg/Nm3. | <ul style="list-style-type: none"> The Plant has installed 10 nos. of DRI Kiln of 500 TPD each with WHRB system connected to 10 nos. of ESP at the hot end of the DRI Kiln and 5 nos. of De-dusting system at the cold end of the DRI kiln. The particulate emission from the Stack is well within the limit. The monitoring data are enclosed as Annexure-III. |
| v | The company shall install centralized de-dusting system to control the primary emissions from the induction furnace top as canopy hood at the top of furnace to capture secondary emissions. | <ul style="list-style-type: none"> The centralized de-dusting system has been established to control primary emissions from the induction furnace top as canopy hood to capture secondary emissions. |
| vi | The company shall take measures for installation of continuous ambient air quality monitoring stations and data sent electronically to SPCB/CPCB. | <ul style="list-style-type: none"> 07Nos. CAAQM stations have been established in consultation with the SPCB in Tata Steel Meramandali complex. Half yearly reports are being submitted to the Regional Office of MoEF&CC, SPCB and CPCB at regular intervals. Summary of AAQ monitoring report is enclosed as Annexure-X. The last half yearly compliance report was submitted vide letter no. no. TSM/MoEF&CC/BS-01/2023-02/344 dated 31.05.2023. |

| iv | Industrial wastewater shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from time to time. The treated wastewater shall be utilized for plantation purpose. | <p>The industrial as well as domestic wastewater is being treated and reused in various purposes like slag quenching, coke quenching, dust suppression and green belt development inside the plant premises.</p> <p>The monitoring reports of Industrial wastewater are being submitted to SPCB/CPCB/MOEF&CC at regular intervals.</p> |
| v | The overall noise levels in and around the plant area shall be kept well within the standards 85 dB(A) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels should conform to the standards prescribed under EPA Rules, 1989 viz. 75 dB (A) (daytime) and 70 dB (A) (nighttime). | <ul style="list-style-type: none"> Acoustic hoods, silencers, enclosures etc. on all sources of noise generation have been provided. Work zone noise monitoring is being carried out and maintained record. A report of ambient noise levels recorded within the premises is enclosed as Annexure-XI. |
| vi | The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA/EMP report. Further, the company must undertake socio-economic development activities in the surrounding villages like community development programmes, educational programmes, drinking water supply and health care etc. | <ul style="list-style-type: none"> Compliance to all environmental protection measures as recommended in EIA / EMP report is ensured. Various socio-economic development programs covering education, safe drinking water, sports and health care etc. are undertaken in nearby villages. A detailed breakup of CSR initiatives is enclosed as Annexure- IX. |
| vii | The project authority will provide separate fund both recurring and non-recurring to implement the conditions stipulated by the MoEF as well as the State Govt. along with the implementation schedule for all the conditions stipulated therein. The funds so provided should not be diverted for any other purposes. | <ul style="list-style-type: none"> Adequate funds are being provided by the management for pollution control and to meet recurring costs. Environmental requirements are given top priority for fund allocation and approval of capital projects. The funds earmarked for environment pollution control measures are not diverted for any other purpose. The company has invested adequate capital expenditure to improve mix of clean power & also reduction of carbon emissions. |

Compliance Status of Environmental Clearance of Expansion of Integrated Steel Plant (1.5 MTPA to 3.1 MTPA at Tata Steel Works, Meramandali, District Dhenkanal, Odisha vide MoEF&CC Letter nos. J-11011/829/2008-IA-II (I) dated 29.06.2005.

|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| viii | <p>The Regional Office of the Ministry at Bhubaneswar / CPCB / SPCB will monitor the stipulated conditions. A six monthly compliance report and monitoring data along with statistical interpretation should be submitted to them regularly.</p> | <ul style="list-style-type: none"> • Six monthly compliance report and monitoring data are being submitted regularly. Last report has been submitted vide letter No. TSM/MoEF&CC/BS-01/2023-02/344; dated 31.05.2023. |
| ix | <p>The Project Proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB and may also be seen at Website of the Ministry of Environment and Forests at http://envfor.nic.in. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same should be forwarded to the Regional office at Bhubaneswar.</p> | <ul style="list-style-type: none"> • Published in Times of India (English) dated 06.07.2005 and in Samaya (Oriya) dated 07.07.2005. • The same has already been communicated to the Regional Office of MOEF&CC, Bhubaneswar. |
| x | <p>Project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work.</p> | <ul style="list-style-type: none"> • Project was completed and in operation. CTO was granted vide letter No 4463/IND-I-CON-5440 dated 23.03.2023 with validity upto 31.03.2025. |

The results made available to the client, tested.

The Test Report shall not be reproduced except as far as the permission of Mitra S. K. Private Limited.

The recovered part or samples for chemical analysis of Total Water shall be retained for 15 days from the date of issue of the Test Report. Reusable samples may be retained for 3 days from the date of issue of the Test Report.

The recovered part or samples for chemical analysis (Total Crude Oil & spent Diesel) shall be retained for 15 days as per IS 3025 (Part 6 & Part 7) respectively from the date of issue of the Test Report.

The recovered part or samples of the Microbiological analysis (Total - Bacteriological samples) Total Coliform Water, Sewage Water shall be retained for 75 days from the date of issue of the Test Report. The bacteriological samples shall be retained 2 days from the date of issue of the Test Report.

The results referred to in the following text:
 This Test Report shall be issued from date of test, without the permission of Mitra S. K. Private Limited.
 The testing period for chemical analysis (other than microbial analysis) shall be extended by 15 days from the date of issue of the Test Report. The validity of samples may be reduced by 2 days from the date of issue of the Test Report.
 The received part of samples for microbial analysis (Sap. 30A & 30B) shall be reduced by 15 days from the date of issue of the Test Report.
 The received part of samples for Microbiology and Pathology (Sap. 30A, 30B, 30C, 30D, 30E, 30F, 30G, 30H) shall be reduced by 15 days from the date of issue of the Test Report. There will be no extension than the standard 2 days from the date of issue of the Test Report.

The results given above is in the form as tested.
The Test Report shall not be reproduced except as far as within the permission of Mitra S. K. Private Limited.
The retained part of sample(s) for reference purpose can be kept for 15 days from the date of issue of the Test Report. Retained samples shall be returned to 15 days from the date of issue of the Test Report.
The retained part of sample(s) for reference analysis (i.e., Soil & Liquid Water) shall be retained for 15 days as per CPCB Guideline 8 (2001). Returns within the date of issue of the Test Report.
The retained part of sample(s) for Microbiological analysis (i.e., -pathogenic bacteria, mould, fungi etc.) shall be retained for 15 days from the date of issue of the Test Report. After 15 days samples shall be incinerated & shall be removed from the place of issue of the Test Report.

TEST REPORT

Name & Address of Customer :

TATA STEEL LTD.

NH-55, NARENDRAPUR, MERAMANDI, DHENKANAL
ODISHA India Pin 769129

Report No. :

MSKPL/FD/2023-24/29692H_1

Date :

16/08/2023

Sample No. :

MSKNB/FD/2023-24/08/FNDSET_1

Date of receipt of sample:

07/08/2023

Date(s) of performance:

07/08/2023 - 16/08/2023

Reference No. & Date :

3000151489/A06, Date - 01/04/2023

We hereby certify that the following sample Drawn by us has been analyzed with the following results:

| | |
|---------------------------------------------------------------|-------------------------------------|
| 1. Group | Water & Residue in Water |
| 2. Description of sample | Surface Water |
| 3. Unique Identification of sample(if any) | NA |
| 4. Date of sampling | 05/08/2023 |
| 5. Place of sampling | Kishinda Down Stream |
| 6. Environmental conditions during sampling & Transport | (2 - 5) deg C Cold chain maintained |
| 7. Sampling Plan & Method used | IS:17614 (P-23) 2021 |
| 8. Identification of the personnel performing sampling by MSK | Ranit Pradhan |

Report No. : MSKPL/FD/2023-24/29692H_1

Sample No. : MSKNB/FD/2023-24/08/FNDSET_1

RESULT

Chemical

| Sl No. | Parameter | UOM | Method | Result |
|--------|----------------------------------|------|--------------------------|---------------------------------------------------------------|
| 1 | Bio-Assay | None | IS 6582 (Part-2) 2001 | All fishes survived in 100% surface water after 96 hrs (Df=1) |
| 2 | Free Ammonia | mg/l | IS 3025 (Part 34) : 1988 | BDL(DL:0.1) |
| 3 | Nitrate Nitrogen | mg/l | IS 3025 (Part 34) : 1988 | 1.02 |
| 4 | Particle Size of Suspended Solid | None | TPM/MSK/FOOD/W/10 | Passes through 650 micro meter IS sieve |
| 5 | Sodium Absorption Ratio (SAR) | mg/l | By Calculation | 4.6 |
| 6 | Sulphide (as S) | mg/l | IS 3025 (Part 29) : 1988 | BDL(DL:0.02) |
| 7 | Total Nitrogen Content | mg/l | IS 3026 (Part 34) : 1988 | 1.58 |
| 8 | Vanadium (as V) | mg/l | IS 3025 (Part 2) : 2004 | BDL(DL:0.05) |

Opinion : NA

TEST REPORT

Name & Address of Customer :

TATA STEEL LTD.

NH-55, NARENDRAPUR, MERAMANDLI, DHENKANAL
ODISHA India Pin 759129

Report No. : MSKPL/FD/2023-24/FT826C

Date : 14/09/2023

Sample No. : MSKNB/FD/2023-24/09/9JC82G

Date of receipt of sample: 06/09/2023

Date(s) of performance: 06/09/2023 - 14/09/2023

Location of performance of Permanent Facility

Reference No. & Date : 3000151489/A06, Date - 01/04/2023

Discipline: Chemical

We hereby certify that the following sample drawn by us has been analyzed with the following results:

| | |
|---------------------------------------------------------------|-------------------------------------|
| 1. Group | Water & Residue in Water |
| 2. Description of sample | Surface Water |
| 3. Unique identification of sample(if any) | NA |
| 4. Date of sampling | 05/09/2023 |
| 5. Place of sampling | Kishinda Up Stream |
| 6. Environmental conditions during sampling & Transport | (2 - 5) deg C Cold chain maintained |
| 7. Sampling Plan & Method used | IS:17614 (P-23) 2021 |
| 8. Identification of the personnel performing sampling by MSK | Ranjit Pradhan |

Report No. : MSKPL/FD/2023-24/FT826C

Sample No. : MSKNB/FD/2023-24/09/9JC82G

RESULT

Chemical

| Sl.No. | Parameter | UOM | Method | Result |
|--------|---------------------------------|------------|--------------------------|----------------|
| 1 | Ammonia (as total ammonia- N) | mg/l | IS 3025 (Part 34) : 1988 | BDL(DL:0.1) |
| 2 | Arsenic as As | mg/l | IS 3025 (Part 2) : 2004 | BDL(DL:0.005) |
| 3 | Biochemical Oxygen Demand (BOD) | mg/l | IS 3025 (Part 44) : 1993 | BDL(DL:2.0) |
| 4 | Boron as B | mg/l | IS 3025 (Part 2) : 2004 | BDL(DL:0.25) |
| 5 | Cadmium as Cd | mg/l | IS 3025 (Part 2) : 2004 | BDL(DL:0.001) |
| 6 | Calcium as Ca | mg/l | IS 3025 (Part 40) : 1991 | 27.72 |
| 7 | Chemical Oxygen Demand (as COD) | mg/l | IS 3025 (Part 58) : 2006 | 11.5 |
| 8 | Chloride as Cl | mg/l | IS 3025 (Part 32) : 1988 | 24.49 |

TEST REPORT

Ref. No. IMMT/CCD/05/2023

Date: 30.05.2023

Name & Address of the Party:
Tata Steel BSL Ltd.
At-Narendrapur, P.O.-Kusupanga
Via-Meramandali, Dist-Dhenkanal
Pin-759121, Odisha.

Your Ref. No.: Work Order No.: 3000145884/A06, Date: 30.06.2022

Sample Details:
1. Indian Coal (01 No.) 2. Imported Coal (01 No.)
3. Iron Ore (01 No.) 4. Lime stone (01 No.)
5. Dolomite (01 No.)

Date of Receiving: 17.03.2023
Date(s) of Conducting Test: 28.03.2023
Date of Completion of Test: 29.04.2023

Method Adopted:
1. Proximate analysis of coal samples by classical methods.
2. Major and trace element analysis of Coal, Iron ore, lime stone and Dolomite samples through wet chemical route by gravimetric, nephelometric, AAS and ICP-OES techniques.
3. Coal samples were leached with distilled water at a solid:liquid ratio of 1:20 for fluoride analysis.

Detail Report: Following data tables are enclosed:

Table-1. Proximate analysis of coal samples.

Table-2. Chemical composition analysis of coal samples.

Table-3. Trace element analysis of coal samples.

Table-4. Chemical composition analysis of Iron ore, Lime stone and Dolomite samples.

Table-5. Trace element analysis of Iron ore, Lime stone and Dolomite samples.

Sub: Acceptance of Updated On-Site Emergency Plan

Ref: Your letter Your L. No. TSM/DFBC/22/62 dated 12.08.2022.

Sir,

In inviting the reference on the subject cited above & in pursuance of provision under Rule 12 of the Odisha Factories (Control of Major Accident Hazard) Rules, 2001, the updated On-Site Emergency Plan of your MAH factory having Identified Hazardous substances LDO, HSD, LPG, LIQUID OXYGEN, HYDROGEN, NaOH, H₂SO₄ & TRANSFORMER OIL bearing Sl.No. 176/22 is hereby provisionally accepted, subject to conditions as mentioned hereunder:-

01. Consequent upon any modification / alteration in future the On-Site Emergency plan shall be prepared and submitted for acceptance.
02. The possible hazards associated with the factory and 'Dos' and 'Don'ts' shall be displayed in prominent place adjacent to main gate & conspicuous places inside the factory with the measures to be taken in case of such incident.
03. Each key personnel of the command structure shall be provided with a worksheet containing their duties and responsibilities.
04. Mock Drill shall be scheduled through PARSHRAM portal at least once in every six months involving zonal Asst. Director of Factories and Boilers / Divisional Dy. Directors of Factories and Boilers concerned & DCG members.
05. Annual report on hold of Mock Drills shall be submitted to the authorities of District Administration under intimation to Assistant Director of Factories & Boilers/Deputy Director of Factories & Boilers/Director of Factories & Boilers
06. Awareness programmes on hazard & mitigation shall be made amongst workers and people living in the vicinity

The accepted copy of the updated On-Site Plan is sent herewith, the receipt of which may please be acknowledged and photocopy of the same be provided to the following authorities:

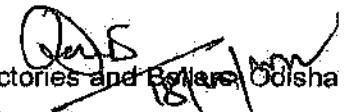

- Addl. Secretary to Govt. of Odisha, Home (Special Section) Department, Bhubaneswar.
- Principal Secretary to Govt. of Odisha, Labour & ESI Department, Bhubaneswar
- Collector & District Magistrate, Dhenkanal.
- Superintendent of Police, Dhenkanal.

P.T.O.

-2-

- District Fire Office, Dhenkanal.
- Chief Medical Officer, Dhénkanal.
- Asst. Director of Factories & Boilers, Dhenkanal Zone.
- Dy. Director of Factories & Boilers, Angul Division.

Yours faithfully,

Memo No. 3144 / Dated, the 19/10/2022 
Director of Factories and Boilers, Odisha

Copy to the Asst. Director of Factories and Boilers Dhenkanal Zone / Dy. Director of Factories and Boilers, Angul Division for information and necessary action.

 Dy. Director of Factories and Boilers, Safety

(-) copy to renewal file

CSR EXPENDITURE AND ACTIVITY HIGHLIGHTS
(Around Tata Steel Ltd. Meramandali)

Period: From April'23 to September'23

| PROGRAM HEAD | Expenditure in Lakh | MAJOR INTERVENTIONS/REMARKS |
|----------------------------|--------------------------------|------------------------------------------------------------------------------------------------|
| HEALTH | 55.61 | Public Health Unit; Rishta; Dengue/Malaria control, Cataract, Non communicable disease control |
| Agriculture | 51.16 | PISCI culture, Lemon grass, SRI farming |
| Water harvesting Structure | 52.50 | Odapada pond renovation work. 9 acre |
| DRINKING WATER | 48.56 | Installation of tubewells; deep bore wells, pipeline system and water supply through tanker |
| EDUCATION | 331.57 | School infrastructure; Education project: QUEST |
| WEE project | 61.32 | WEE Project |
| COMMUNITY INFRASTRUCTURE | 43.32 | Construction & Maintenance of Drain and Road; Installation of solar lights |
| SPORTS | 1.59 | Volleyball coaching |
| ETHNICITY | 1.43 | Odia New year celebration (Maha Bisuva Sankranti) |
| TOTAL | 647.06 | |

TATA Steel Meramandali, Odisha

Work Zone Noise Monitoring Report for the month of Jan 2023

| S.N | Name of the unit | Location | Noise level in dB(A) | | |
|-----|------------------|-----------------------------------|----------------------|------|------|
| | | | Min. | Max. | Leq |
| 11 | Sinter Plant-1 | 9 m office room | 60.3 | 75.3 | 72.4 |
| | | 15 m office | 59.7 | 79.7 | 65.4 |
| | | 19 m office | 59.9 | 66.4 | 61.6 |
| | | Store area | 59.8 | 73 | 62.7 |
| 12 | Coke Oven-1 | Electrical office | 59.8 | 80.3 | 68.4 |
| | | Control room office | 54.2 | 69.6 | 59.5 |
| | | Laboratory | 52.1 | 75.3 | 70.1 |
| 13 | Sinter Plant-02 | Control Room Area | 51 | 67.4 | 64.1 |
| 14 | Sinter Plant-03 | Control Room Area | 60.8 | 73.1 | 63.4 |
| 15 | BOF Shop | BOF office area | 48.9 | 64.4 | 66.9 |
| | | Near Wage bridge area | 69.1 | 80.1 | 73.4 |
| 16 | SMS-2-FES-1&2 | Booster House (ID Fan) | 81.6 | 90.3 | 87.5 |
| | | Near Control room Area | 58.3 | 62.4 | 59.1 |
| | | Near RHF Office area (Pulpit) | 68.6 | 72.2 | 69.9 |
| | | Near Roll Shop area | 74.6 | 84.6 | 78.3 |
| 17 | HSM | Near HSM Quality Lab area | 68.6 | 78.3 | 64.3 |
| | | DC pulpit office area | 61.2 | 81.9 | 71 |
| | | PM area | 79.9 | 84.1 | 83 |
| | | Near DC sampling Station | 76 | 87.1 | 80.2 |
| 18 | Coke Oven-2 | Control Room Office | 66.1 | 80.2 | 67.8 |
| 19 | BFPP-2 Boiler-3 | Control room office | 64.5 | 80.6 | 72.1 |
| 20 | Oxygen Plant-02 | Control Room Office | 56.5 | 82.6 | 80.4 |
| 21 | BB Plant | BB Plant Office | 60.5 | 75.4 | 66.7 |
| 22 | RMPP | Control Room Office | 58.5 | 77.5 | 70.1 |
| 23 | Coal Washary | Lab & Office Area | 55.6 | 60.1 | 57.3 |
| 24 | RMHS | RMHS Office | 53.9 | 73.6 | 59.8 |
| 25 | IBMD | New Sarpa MRP-II (Operator Cabin) | 82.8 | 76.1 | 63.9 |

N: B- All employees are provided ear plug / earmuff in noise prone areas. Rotation of employees are being done to ensure less than 8 hrs. exposure in high noise area.

June 19, 2023

The Member Secretary
State Pollution Control Board, Odisha
A/118, Paribesh Bhawan
Nilakanthanagar, Unit-VIII
Bhubaneswar -751012

Sub: Submission of hazardous waste annual return (Form-4) for the period April 2022 to March 2023.

Ref: Authorization no. IND-IV-HW-622/4619 dated 24.03.2023

Dear Sir,

In reference to the captioned subject and letter cited above. As per the provision of Hazardous and Other Wastes (Management & Transboundary Movement) Rules, 2016; we are submitting hereby annual returns (Form-4) of said rules for the period April 1, 2022 to March 31, 2023 for our TATA Steel Ltd. Meramandali integrated steel plant attached as **Annexure-I**.

Hope, the information furnished is in line with the requirement.

Thanking you,

Yours faithfully,
For Tata Steel Limited

e-mail- officeofchiefemd.tsm@tatasteel.com

4. Production during the year:

Total Production (Crude Steel) during 2022-23: 4.95 MTPA

Part A. To be filled by hazardous waste generators

1. Total quantity of waste generated category wise:

| SL | Waste Description | Schedule and Waste Stream/Class | Quantity (in Tonnes/KL) |
|----|------------------------------------------------------------|---------------------------------|-------------------------|
| 1 | Used /Spent Oil | Schedule -I Stream -5.1 | 256.0 T |
| 2 | Waste/Residue Containing Oil | Schedule -I Stream -5.2 | 36.7 T |
| 3 | Oil and grease skimming (Oily Sludge) | Schedule -II Class-C | 122.0 T |
| 4 | Residue from Coke Oven by-product plant (BOD Plant Sludge) | Schedule- I Stream-13.6 | 2457.0 T |

| | | | |
|----|--------------------------------------------------------------------------------|----------------------------------------------------|--------------------|
| 5 | Decanter tank sludge and tar sludge tank residue | Schedule- I Stream-13.4 & 13.5 | 1498.9 T |
| 6 | Acidic & Alkali Residues/Spent Acid and Alkali | Schedule- I Stream-12.1 & 12.2 | 12.1 T |
| 7 | ETP Sludge of CRM/Chemical Sludge from wastewater Treatment Plant | Schedule- I Stream-35.3 | 780.0 T |
| 8 | Spent Ion Exchange Resin containing toxic metals. | Schedule- I Stream-35.2 | - |
| 9 | Process wastes, Residues and sludges/ Spent Solvent (Waste Thinner-Oily Waste) | Schedule -I Stream -21.1 &21.2 | 3.95 T |
| 10 | Insulation Materials generated from various units | Schedule -II Class-C | 85.0 T |
| 11 | Empty Barrels/Containers/Liners contaminated with Hazardous chemicals/wastes | Schedule -I Stream -33.1 | 5957 Nos & 20.18 T |
| 12 | Exhaust Air or Gas Cleaning Residue /LD Sludge (BF, SMS and APC Dust) | Schedule -I Stream -35.1 & Schedule -II Stream -C2 | 188566 T |
| 13 | Zinc Dross/Ash/Skimmings/Residues | Schedule -IV Stream – (11 to 15) | 510.0 T |

2. Quantity dispatched

(i) to disposal facility:

| SL | Waste Description | Quantity (in Tonnes/KL) | Name of the Disposal Facilities |
|----|-------------------------------------------------------------------|----------------------------|----------------------------------------------|
| 1 | Oil and grease skimming (Oily Sludge) | 84.46 T | M/s Re-Sustainability Ltd. Jajpur, Odisha |
| 2 | Insulation material (Glass wool) | 120.9 T | |
| 3 | Acidic & Alkali Residues/Spent Acid and Alkali | 5.36 T | |
| 4 | ETP Sludge of CRM/Chemical Sludge from wastewater Treatment Plant | 607.92 T | |

(i) to recycler or co-processors or pre-processor:

| SL | Waste Description | Quantity (in Tonnes/KL) | Name of the Reprocessing Facilities |
|----|------------------------------------------------------------------------------|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Used /Spent Oil | 267.9 T | M/s Bristol Petroleum Pvt. Ltd. At- 26/5/D E, A.M. Ghosh Road, Budge,24 Parganas (S), WB |
| 2 | Empty Barrels/Containers/Liners contaminated with Hazardous chemicals/wastes | 5957 Nos. & 20.1 T | M/s A.K. Enterprises M/s TAJ Traders M/s VISHAKHA STEEL TRADERS M/s Hindustan Tin Supply M/s ARNAV TRADERS M/s BHOLANATH WORKSHOP M/s AMMA BHAGWAN STEEL TRADERS |
| 3 | Zinc Dross/Ash/Skimmings/ Residues | 436 T | M/s Neelam Metal Products M/s Cosmo Agromet Industries M/s East Coast Bio-Tech Project M/s M/s Alfa Pigment & Chemicals (P) Ltd. |
| 4 | LD Sludge (BOF) | 61017 T | M/s Ardent Steel Limited, Phulljhar, Kendujhar, Odisha |

(ii) Others: Not Applicable

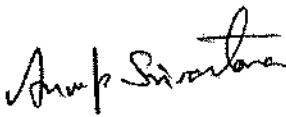

3. Quantity utilised in-house, if any:

| SL | Waste Description | Quantity (in Tonnes/KL) | Mode of utilization |
|----|----------------------------------------------------------------------------------------------------------|----------------------------|--------------------------------|
| 1 | Residue from Coke Oven by-product plant (BOD Plant Sludge) | 2457 T | Internally reused in coke oven |
| 2 | Decanter tank sludge and tar sludge tank residue | 1498.9 T | Internally reused in coke oven |
| 3 | Exhaust Air or Gas Cleaning Residue (BF-I &2) /APC Dust (FES Dust from SMS-II & Bag filter from SMS-III) | 94009 T | Reused in sinter plant |

4. Quantity in storage at the end of the year –

| SL | Waste Description | Quantity (in Tonnes/KL) |
|----|-----------------------------------------------------------------------------------|----------------------------|
| 1 | Spent Ion Exchange Resin containing toxic metals. | 3 T |
| 2 | Process wastes, Residues and sludges/ Spent Solvent (Waste Thinner-Oily Waste) | 3.95 T |
| 3 | Waste/Residue Containing Oil | 36.72 T |

Annexure-XIV

CORPORATE RESPONSIBILITY FOR ENVIRONMENT PROTECTION COMPLIANCE

1. Coke Oven Plants

Action Points (I) : To meet the parameters PLD (% leaking doors), PLL (% leaking lids), PLO (% leaking off take), of the notified standards under EPA within three years (by December 2005). Industry will submit time bound action plan and PERT Chart along with the Bank Guarantee for the implementation of the same,

Compliance: PLD (% leaking doors), PLL (% leaking lids), PLO (% leaking off take) are being monitored on monthly basis and reports are within the notified standards.

Action Points (II) : To rebuild at least 40% of the coke oven batteries* in next 10 years (by December 2012).

Compliance: Not applicable as the batteries at coke ovens #1& 2 are new.

2. Steel Melting Shop

Action Points (I) : Fugitive emissions - To reduce 30% by March 2004 and 100% by March 2008 (including installation of secondary de-dusting facilities).

Compliance : Primary and secondary dust extraction system have been installed to reduce Fugitive dust emission from SMS.

3. Blast Furnace

Action Points (I) Direct inject of reducing agents -- by June 2013

Compliance : The blast furnace has been commissioned with direct injection of PCI up to 200 Kg/Ton of Hot metal.

4. Solid Waste/ Hazardous Waste Management

Action Points (I) Utilization of Steel Melting Shop (SMS) / Blast Furnace (BF) Slag as per the following schedule: By 2004 - 70%, By 2006 - 80% and By 2007 - 100%.

Compliance :

- Most of the industrial solid wastes are reused internally in different units. Like Flue dust, GCP sludge, Bag filter dust of SMS & BF, coal dust, mill scale, lime fines are used in sinter making. DRI Char is being used along with coal in Power plant.
 - The entire quantity of blast furnace slag is dispatched to cement manufacturers based on long term MoU with the cement manufacturer.
 - Fly ash is also being supplied to
 - nearby fly ash brick manufacturing units, free of cost, for maximum utilization of ash.
 - Cement plants through bulker.
 - Construction of national highway (NH-55).
- Balance if any is being utilised in reclamation of low lying areas & abandoned stone quarries as per guidelines of CPCB/ OSPCB after grant of necessary consents.

- The SMS slag (LD slag) is processed in material recovery plant (MRP) for separation of metallic from the non-magnetic part and sized for various applications. Some of the key applications of LD slag product are
 - recovered metallics used in steel making process as a scrap,
 - recovered fines used in sinter making process for replacement of lime,
 - non-mag utilization in cement manufacturing, road making, and hard sand applications.
 Solid waste utilization percentage is given below.

Fly ash : 100%

BF slag : 100%

SMS Slag: 98%

5. Hazardous Wastes

Action Points (I) : Charge of tar sludge / ETP sludge to Coke Oven by June 2003.

Compliance : The tar sludge/ETP sludge is being reused in coke oven along with coal.

Action Points (II): Inventorisation of the Hazardous Waste as per Hazardous waste (M&H) Rules, 1989 as amended in 2000 and implementation of the Rules by Dec.2003. (tar sludge, acid sludge, waste lubricating oil and type fuel falls in the category of Hazardous Waste)

Compliance: Inventorisation of the Hazardous Waste has been done as per the Hazardous & Other Waste (Management and Transboundary Movement) Rules,2016. Accordingly, Hazardous Waste Authorisation has been taken from State Pollution Control Board Odisha, which is valid till 31.03.2023.

6. Water Conservation/ Water Pollution

Action Points (I) To reduce specific water consumption to 5 m³/t for long products and 8 m³/t for flat products by December 2005.

Compliance: The following initiative have been undertaken to reduce the specific water consumption.

Reduction of freshwater consumption in closed circuit by increasing the Cycle of Concentration (COC) up to 8. Reuse of treated wastewater back in the process

- **Industrial wastewater treatment:** Installed state- of-art technologies 3 nos. ETPs at CRM & Coke Ovens and 3 nos. of thickener at Blast Furnaces 1&2 and Steel Making Shops.
- **Surface runoff Treatment:** 02 nos. of common effluent treatment plants have been installed to treat surface runoff from DRI, Power Plant and RHMS. 27 Nos. of settling pits have been constructed to remove the suspended solids.
- **Domestic wastewater treatment:** Installed 5 nos. STPs with Fluidized aerobic bed (FAB). Reuse of treated water for cooling tower make up, coal washery make up, dust suppression, slag quenching, slurry making and gardening purposes. SOP has been framed and implemented for operation & maintenance of all ETPs and STPs.

- **Coke Ovens** are equipped with Coke Dry Quenching Unit. WHRB of capacity 94.5 TPH at Coke Oven – II & 64 TPH at Coke Oven - I have been commissioned.

A rainwater harvesting (RWH): High-Density Polyethylene ('HDPE') lined pond of capacity 50,000 m³ had been constructed for harvesting of rainwater and reuse in different applications.

The specific water consumption of the of last three years is given below :

FY 20 : 4.14 m³/tcs.

FY 21 : 4.02 m³/tcs.

FY 22 : 3.42 m³/tcs.

FY 23 : 3.55 m³/tcs

Action Points (II): To operate the CO-BP effluent treatment plant efficiently to achieve the notified effluent discharge standards. - by July 2003.

Compliance : The Phenolic effluents of both the Coke Ovens are being treated in BOD plant. Further, to treat the treated effluent UV Oxidation Plant of capacity 80m³/hr has been commissioned to treat Cyanide. The treated effluent is within the stipulated and reused in Coke & slag quenching and dust suppression.

Action Points (III) : Installation of Continuous stacks monitoring system & its calibration in major stacks and setting up of the online ambient air quality monitoring stations by June 2005.

Compliance : 39 Nos. Continuous online stack monitoring system for PM (Continuous Emission Monitoring System - CEMS) and 20 Nos. Continuous online stack monitoring system for Gaseous parameter (SO₂ & NO_x) (Continuous Emission Monitoring System - CEMS). 7 Nos. Ambient Air Quality Monitoring system (CAAQMS) has also been commissioned. Real time data is being transferred to OSPCB server through RTDMS (IOT device). All analyzers are being calibrated half yearly.

Action Points (IV) : To operate the existing pollution control equipment efficiently and to keep proper record of run hours, failure time and efficiency with immediate effect. Compliance report in this regard is submitted to CPCB / SPCB every three months.

Compliance : All the pollution control facilities are being operated efficiently and record is being maintained. Details of energy meter readings of ESPs/Bag filters are being furnished to OSPCB on monthly basis.

7. Sponge Iron Plants

Action Points (I) : Inventorisation of sponge iron plants to be completed by SPCBs/CPCB by June 2003 and units will be asked to install proper air pollution control equipments by December 2003 to control primary and secondary emissions.

- **Compliance :** The following air Pollution Control Equipment's have been installed to control primary and secondary emissions.5 Nos. of ESPs have installed at product handling area.3 Nos. bag filters have installed at junction house and transfer building to control fugitive dust emission.2 Nos. Wheel Washing System also is in operation.10 Nos. Pug mill have installed at Cold ESP and Char Silos. Seal plates installed across all conveyors to prevent material fall at ground. Belt sway switches are installed to prevent the one-sided movement of conveyors and to stop the conveyor movement immediately in case of material spillage. Suitably designed nozzles installed at unloading point to prevent dust fall. Increased the frequency of road sweeping machine operation and strict monitoring.

**Compliance to the commitment made during Public Hearing
on 28.10.2010 at 11.00 am for proposed expansion of steel plant from 3.1 to 5.6 MTPA**

1. Points raised: Measures taken for air pollution and fugitive dust control

Commitment made: For air pollution control ESP, bag filters, dry fog collection systems and fugitive dust water sprinklers, mobile tankers are provided. The air pollution control equipments are operative. There is improvement in the DRI areas with regard to dust/fugitive emissions.

Compliance:

- 5 Nos. of ESPs have installed at product handling area, 3 Nos. bag filters have installed at junction house and transfer building to control fugitive dust emission. 1 Nos. Wheel Washing System also is in operation. 10 Nos. Pug mill have installed at Cold ESP and Char Silos. Pneumatic conveying of raw material / ash to reduce fugitive emission from solid/ dust handling.
- Encapsulation of conveying system & Installation of Telescopic chute to minimize dust emission during unloading of bottom ash.
- Provisions of high efficiency dust collection systems like Electrostatic precipitators 27 nos.), Bag filters (55 nos.), Scrubbers (9 nos) etc.
- Installation of dust suppression system (DFS- 242 nozzles) at coal circuit, iron ore circuit and at Ash transfer points. Installation of gun sprinklers (128 Nos) at raw material yard to reduce fugitive emission.
- Technological improvements like Power supply of ESP (Electrostatic precipitator) using High frequency transformer rectifier/Micro pulse-based rectifier.
- Spillage reduction in conveyor junction houses by installation of new technology sealing using double skirt rubber and commissioning of new dust extraction system in junction houses helped to reduce fugitive emission significantly.
- Periodic maintenance of pollution control equipment & proper housekeeping is being done by a professional expert team.
- Five Nos. Wheel Washing System have been installed at BFPPI , BFPPII, RMHS & DRI-WHRB to minimize carry over of mud/dust with the trucks and consequently deposition on road which in turn contribute to ambient air quality. Washing water is being recycled.
- 6 no. of Portable PM₁₀ Analyzer have been installed at strategic location of different unit to assess Ground Level Concentration of PM₁₀.
- IVC (Industrial Vacuum Cleaner) has been installed for mechanical cleaning of dust to reduce fugitive emission during manual cleaning.
- Lechler dust suppression system has been installed in Wagon Tippler to reduce fugitive dust emission during Wagon tippling
- Successful commissioning of Portable dedusting machine at the coveyor junction house to reduce fugitive emission.

- 9 Nos. of Mechanized Road sweepers have been deployed for dry sweeping of internal roads and shop floors with dust suction facility.
- Vehicles carrying raw materials are being covered with tarpaulin to protect during transportation.

2. Points raised: Wastewater Management

Commitment made: The discharge of waste water/runoff from plant to outside is minimized and facilities are on progress for retaining all treated wastewater and will be reused in captive plantation and dust suppression etc.

Compliance:

- All effluents are being treated in primary treatment plants (19 nos.) in steel plant attached with respective units and Effluent Treatment Plants (3 nos.) centrally.
- Treated water is being reused for dust suppression, ash handling, make up for DRI & cooling towers and for green area development.
- Process effluent after treatment is being reused. During the period Apr'23 to Sep'23, 2975753 m³ of water has been recycled. However, we are further improving the efficiency of the water management system by technology intervention to increase the utilization.
- The sanitary sewage is being treated in 4 Sewage Treatment Plants and used for green belt development and low-end application in plant.
- Rainwater harvesting of capacity 50000m³ with HDPE liner has been constructed to store & reuse rainwater.
- Zero Effluent Discharge (ZED) project will be implemented by March 2024.

3. Solid waste management

Commitment made:

The bottom ash slurry is being disposed off in two ash ponds already constructed. The entire ash will be made semi solid and will be dispatched in HDSD system to MCL mine cavities already acquired. At present ash is dumped inside vacant areas of the plant premises.

Compliance :

- Solid waste handling, storage, utilization and disposal are being done scientifically. The toxic metal content and compositional analysis of solid waste are being carried out regularly.
- The SMS slag (LD slag) is processed in material recovery plant (MRP) for separation of metallic from the non-magnetic part and sized for various applications. Some of the key applications of LD slag product are
 - recovered metallics used in steel making process as a scrap,

- recovered fines used in sinter making process for replacement of lime,
- non-mag utilization in cement manufacturing, road making, and hard sand applications.
- Fly ash brick and paver block have been manufacturing units have been installed inside the plant for use in construction activities including road construction etc. inside the plant. This is also helping in maximum utilization of fly ash.
- Fly ash is also being supplied to nearby fly ash brick manufacturing units, free of cost, for maximum utilization of ash.
- Fly ash is also being supplied to cement plants through rake & bulker.
- Fly ash is being used in the construction of national highway (NH-55).
- Ash is also being used in filling low lying areas & abandoned stone quarries as per guidelines of CPCB/ OSPCB after grant of necessary consents. Presently no fly ash is being disposed in MCL mine void.

4. Obtaining clearance for coal washery

Commitment made:

The industry has already obtained consent to operate of the Board as stated.

- Compliance : Consent to Operate for 5.6 MTPA integrated steel plant was obtained from SPCB vide letter no 4463/IND-I-CON-5440, dated. 23.03.2023 and is valid up to 31.03.2025.

5. Employment opportunities

Commitment made:

By setting up the unit lots of scopes will be generated with regard to employment for the local people, indirect employment, generation of small business etc. This will enhance the quality of life in the project affected areas.

Compliance:

All displaced persons (40 Nos) from the village Raghunathpur have been given permanent employment. Moreover, for project affected persons (indirectly about 22332 Nos) of the all adjacent seven villages have been given indirect job.

6. Plantation in 33% of the acquired area

They have not planted in 33% of the total area. However, plantation work is in progress in outside areas as well as inside plant premises.

Compliance:

Green belt development is under progress in and around the plant complex by planting indigenous species as per CPCB guidelines. Till Sept'23, 33.66% of area (This includes Plant, R&R and CSR) has been covered under green belt. Rapid afforestation using MiyaWaki method in consultation with IIT, Kharagpur has been initiated. Plantation of saplings are done regularly based on the availability of vacant area.

7. Regarding water supply to the affected villages

They have supplied drinking water facilities to villages (Sarpa, Raghunathpur, Narendrapur, and Sibpur in Dhenkanal and Ghantigadia & Talbahal in Angul districts). Besides, they have supplied 8" pipes of 1500 meters under RWSS water supply scheme for supply of water to village Kusupanga, Mangalpur, Manpur and Kurunti.

However, supplying of drinking water to the periphery villages will be expedited and in summer water shall be provided in tankers wherever it is required.

Compliance:

Various CSR activities have been undertaken since the inception of the plant by providing facilities of sanitation, drinking water, education, health care, road, communication etc. Further, CSR activities and its related expenditure has been substantially increased after acquisition of the industry by Tata Steel Limited.

Drinking water through pipeline is being supplied to seven nearby adjacent villages such as Ghantigadhia, Raghunathpur, Sarpa, Nuagaon, Shibapur, Talbahal and Narendrapur.

8. Regarding water supply to the affected villages Other peripheral development

Lots of activities so far done by the project proponent in all the affected villages like water supply, electrification etc. This expansion will definitely help in performing these activities in future. The unit assured villagers to do medical camp and eradication of blindness campaign for peripheral and affected villages.

The industry will take up following peripheral development and will also do as per directions of the concerned authorities:

1. Extensive plantation in outside areas will be carried out.
2. Scope for local persons for ITI training.
3. Health check up camps will be made in the affected areas.
4. Supply of drinking water to the project affected persons.
5. Village roads will be constructed as per the requirements.
6. Aid will be provided to village schools.

Compliance :

- Extensive plantation in outside areas have been carried out in nearby villages.
- We are organizing the health check up camps in the adjacent villages on regular basis.

- Drinking water through pipeline is being supplied to seven nearby adjacent villages such as Ghantigadhia, Raghunathpur, Sarpa, Nuagaon, Shibapur, Taibahal and Narendrapur.
- Village roads are being constructed and repaired on need basis.
- Schools in adjacent villages are being supported by us in terms of infrastructure like school buildings, boundary walls, drinking water, study material and remunerations to teachers.

9. Change of place of public consultation

The venue, time and date were decided by the district administration

Stage - II

Annexure-XVI

F. No. 8-84/2005-FC
Government of India
Ministry of Environment & Forests
(FC Division)

Paryavaran Bhawan
CGO Complex, Lodhi Road
New Delhi-110 003

Dated : 13th November 2006

To

The Secretary (Forests),
Government of Orissa,
Bhubaneswar.

Sub: Diversion of 61.48 ha of Revenue Forest/DPF in Dhenkanal and Angul Districts of Orissa for setting up of an Integrated Steel Plant by M/s Bhusan Steel and Strips Limited.

Sir,

I am directed to refer to your letter No. 10F(Cons)52/2005/6686/F&E, Bhubaneswar dated 22.09.2005 whereunder the above mentioned proposal was submitted seeking prior approval of the Central Government in accordance with Section-2 of the Forest (Conservation) Act, 1980 and to say that the above proposal was examined by the Forest Advisory Committee (FAC) constituted under Section-3 of the Act.

2. After careful consideration of the proposal of the State Government and on the basis of recommendations of the above mentioned Advisory Committee, the Central Government granted in-principle approval vide letter dated 25.11.2005 subject to certain conditions. The compliance of these conditions was submitted vide your letter No. 10F(Cons)52/2005/17702/F&E dated 28.10.2006. After consideration of the proposal and compliance of various conditions by the State Government, the Central Government hereby conveys its approval under Section-2 of the Forest (Conservation) Act, 1980 for diversion of 61.48 ha of Revenue Forest/DPF in Dhenkanal and Angul Districts of Orissa for setting up of an Integrated Steel Plant by M/s Bhusan Steel and Strips Limited, subject to the fulfilment of following conditions :-

- (i) Legal status of the forest shall remain unchanged.
- (ii) Compensatory Afforestation shall be raised and maintained over non-forest land equal in extent to the forest land being diverted, at the project cost.
- (iii) The non-forest land identified for Compensatory Afforestation shall be declared as Reserved/Protected Forests. The Nodal Officer shall report compliance within three months.
- (iv) RCC pillars of 4 feet height shall be erected and maintained to demarcate the area by the user agency at the project cost and will be marked with forward and back bearings.
- (v) An undertaking from the user agency may also be obtained stating that in case the rates of Net Present Value (NPV) are revised upwards, the additional/differential amount shall be paid by the user agency.
- (vi) The State Government shall deposit Net Present Value and all other funds with the Ad-hoc Body of Compensatory Afforestation Fund Management and Planning Authority (CAMPA), in Account No. CA 1585 of Corporation Bank (A Government of India Enterprises), Block-11, Ground Floor, C.G.O. Complex, Phase-1, Lodhi Road, New Delhi-

110003, as per the instructions communicated vide letter No. 5-2/2006-FC dated 20.05.2006.

- (vii) The Conservation Plan, as submitted by the State Government shall be implemented at the project cost under supervision of Chief Wild Life Warden of the State.
- (viii) All efforts should be made for improvement of wildlife habitat around leasehold area in consultation with the Chief Wild Life Warden of the State Forest Department, as per the Wildlife Management Plan and at the project cost.
- (ix) The rehabilitation of displaced persons should not be done on forest land. The Rehabilitation and Resettlement Plan shall be implemented for settlement of displaced persons, at the project cost.
- (x) Trees shall be felled only when it becomes necessary and that too under strict supervision of State Forest Department, and at the cost of the project.
- (xi) No labour camps shall be established on the forest land.
- (xii) All necessary measures should be taken by the user agency to protect the environment.
- (xiii) Sufficient firewood shall be provided by the user agency to the labourers at the project cost after purchase from the State Forest Department/Forest Development Corporation.
- (xiv) The user agency shall ensure that there should be no damage to the available wildlife.
- (xv) The forest land shall not be used for any purpose other than that specified in the proposal.
- (xvi) The forest land thus diverted shall be non-transferable. Whenever and whatever extent of forest land is not required by the user agency, it shall be surrendered to the State Forest Department under intimation to this Ministry.

The State Government shall ensure compliance of all the above conditions.

Yours faithfully,

(Pankaj Asthana)
Assistant Inspector General of Forests

Copy to :-

1. The Principal Chief Conservator of Forests, Government of Orissa, Bhubaneswar.
2. The Nodal Officer, Forest Department, Government of Orissa, Bhubaneswar.
3. The Chief Conservator of Forests (Central), Regional Office, Bhubaneswar.
4. User Agency.
5. Guard File.
6. Monitoring Cell of FC Section.

(Pankaj Asthana)
Assistant Inspector General of Forests

| | |
|----------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| 1. Group | Atmospheric Pollution |
| 2. Description of sample | Ambient Air |
| 3. Unique Identification of sample (if any) | NA |
| 4. Date of sampling | 28/06/2023 |
| 5. Place of sampling | Near CAAQMS 5 (Coke Oven-2) |
| 6. Environmental conditions during sampling & Transport | 1) Temperature :30-38 deg C 2) Barometric Pressure: 745 mm of Hg 3) Rain fall : No & Cold Chain Maintained |
| 7. Sampling Plan & Method used | IS:5182(P-2,6,9,11,12,23), TPM-1,3,8 & USEPA |
| 8. Identification of the personnel performing sampling by MSK | Chinmaya Biswal |
| 9. Field Equipments Used | MSK/BBSR/FIELD/FDS-9, MSK/BBSR/FIELD/RDS-08 |

Report No. : MSKPL/ED/2023-24/LEKEES**Sample No. :** MSKNB/ED/2023-24/06/7M5F8N

RESULT

Chemical

| Sl No. | Parameter | UOM | Method | Limit | Result |
|--------|--------------------------------------------------------------------------------------------------------------|-------------|----------------------------------------------------------------|----------------|--------|
| 1 | Ammonia (as NH3) | micro gm/m3 | TPM/MSK/ENV(AP)/01/6 Issue no- 01 Issue Dated. April 02 : 2018 | 400 (24 Hours) | 45.9 |
| 2 | Arsenic as (As) | ng/m3 | USEPA-IO 3.4 by ICP-OES, June 1999 | 5 (Annual) | <1.0 |
| 3 | Benzene | micro gm/m3 | IS 5182 (Part 11) : 2006 | 5 (Annual) | <4.2 |
| 4 | Benzo(a)Pyrene | ng/m3 | IS 5182 (Part 12) : 2004 | 1 (Annual) | <0.5 |
| 5 | Carbon monoxide (as CO) | mg/m3 | IS 5182 (Part 10) (NDIR): 1999 | 2 (8 Hours) | 0.59 |
| 6 | Lead (as Pb) | micro gm/m3 | USEPA-IO 3.4 by ICP-OES, June 1999 | 1 (24 Hours) | 0.03 |
| 7 | Nickel as Ni | ng/m3 | USEPA-IO 3.4 by ICP-OES, June 1999 | 20 (Annual) | <5.0 |
| 8 | Nitrogen Dioxide as (NO2) | micro gm/m3 | IS 5182 (Part 6) : 2006 | 80 (24 Hours) | 28.6 |
| 9 | Ozone (as O3) | micro gm/m3 | IS 5182 (Part 9) : 1974 | 180 (1 Hours) | 29.8 |
| 10 | PM10 (Particulate Matter < 10 μm) /Respirable Suspended Particulate Matter, Cyclonic technique. | micro gm/m3 | IS 5182 (Part 23) : 2006 | 100 (24 Hours) | 89.4 |
| 11 | PM2.5 (Particulate Matter < 2.5 μm) | micro gm/m3 | TPM/MSK/ENV(AP)/01/03 Issue no- 01 Issue Date April 02 : 2018 | 60 (24 Hours) | 54.3 |
| 12 | Sulphur Dioxide as (SO2) | micro gm/m3 | IS 5182 (Part 2) : 2001 | 80 (24 Hours) | 6.7 |

31/07/2023

Sample No. :

MSKNB/ED/2023-24/07/DC242N

Date of receipt of sample:

22/07/2023

Date(s) of performance:

22/07/2023 - 31/07/2023

Location of performance of

Permanent Facility

Reference No. & Date :

3000146695/A06, Date - 15/12/2022

Discipline:

Chemical

We hereby certify that the following sample Drawn by us has been analyzed with the following results:

| | |
|---------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| 1. Group | Atmospheric Pollution |
| 2. Description of sample | Ambient Air |
| 3. Unique Identification of sample(if any) | NA |
| 4. Date of sampling | 19/07/2023 |
| 5. Place of sampling | Near Cesaems-2(Ael) |
| 6. Environmental conditions during sampling & Transport | 1) Temperature :30-34 deg C 2) Barometric Pressure: 742 mm of Hg 3) Rain fall : No & Cold Chain Maintained |
| 7. Sampling Plan & Method used | IS:5182(P-2,6,9,11,12,23), TPM-1,3,8 & USEPA |
| 8. Identification of the personnel performing sampling by MSK | Mr. Jyoti Prakash |
| 9. Field Equipments Used | MSK/BBSR/FIELD/FDS-4, MSK/BBSR/FIELD/RDS-04 |

Report No. : MSKPL/ED/2023-24/41MF36

Sample No. : MSKNB/ED/2023-24/07/DC242N

RESULT

Chemical

| SI No. | Parameter | UOM | Method | Limit | Result |
|--------|-----------------------------------------------------------------------------------------------------------|-------------|---------------------------------------------------------------|----------------|--------|
| 1 | Ammonia (as NH3) | micro gm/m3 | TPM/MSK/ENV(AP)/01/6 Issue no- 01 Issue Dated. April 02, 2018 | 400 (24 Hours) | 41.5 |
| 2 | Arsenic as (As) | ng/m3 | USEPA-IO 3.4 by ICP-OES, June: 1999 | 6 (Annual) | <1.0 |
| 3 | Benzene | micro gm/m3 | IS 5182 (Part 11) : 2006 | 5 (Annual) | <4.2 |
| 4 | Benzo(a)Pyrene | ng/m3 | IS 5182 (Part 12) : 2004 | 1 (Annual) | <0.5 |
| 5 | Carbon monoxide (as CO) | mg/m3 | IS 5182 (Part 10) (NDIR): 1999 | 2 (8 Hours) | 0.35 |
| 6 | Lead (as Pb) | micro gm/m3 | USEPA-IO 3.4 by ICP-OES, June: 1999 | 1 (24 Hours) | <0.01 |
| 7 | Nickel as Ni | ng/m3 | USEPA-IO 3.4 by ICP-OES, June: 1999 | 20 (Annual) | <5.0 |
| 8 | Nitrogen Dioxide as (NO2) | micro gm/m3 | IS 5182 (Part 6) : 2006 | 80 (24 Hours) | 30.6 |
| 9 | Ozone (as O3) | micro gm/m3 | IS 5182 (Part 9): 1974 | 180 (1 Hours) | <20.0 |
| 10 | PM10 (Particulate Matter < 10 μm)/Respirable Suspended Particulate Matter Cyclonic technique | micro gm/m3 | IS 5182 (Part 23): 2006 | 100 (24 Hours) | 64.6 |
| 11 | PM2.5 (Particulate Matter < 2.5 μm) | micro gm/m3 | TPM/MSK/ENV(AP)/01/03 Issue no- 01 Issue Date April 02, 2018 | 60 (24 Hours) | 35.8 |
| 12 | Sulphur Dioxide as (SO2) | micro gm/m3 | IS 5182 (Part 2) : 2001 | 80 (24 Hours) | 6.8 |

Reference No. & Date : 3000148695/A06, Date - 15/12/2022

Discipline: Chemical

We hereby certify that the following sample Drawn by us has been analyzed with the following results:

| | |
|---------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| 1. Group | Atmospheric Pollution |
| 2. Description of sample | Ambient Air |
| 3. Unique Identification of sample(if any) | NA |
| 4. Date of sampling | 08/09/2023 |
| 5. Place of sampling | Near Csaagans-4(HSM Water Complex) |
| 6. Environmental conditions during sampling & Transport | 1) Temperature :25-36 deg C 2) Barometric Pressure: 742 mm of Hg 3) Rain fall : No & Cold Chain Maintained |
| 7. Sampling Plan & Method used | IS:5182(P-2,6,9,11,12,23), TPM-1,3,6 & USEPA |
| 8. Identification of the personnel performing sampling by MSK | Chinmaya Biswas |
| 9. Field Equipments Used | MSK/BBSR/FIELD/FDS-10, MSK/BBSR/FIELD/RDS-10 |

Report No. : MSKPL/ED/2023-24/6A440J

Sample No. : MSKNB/ED/2023-24/09/G01541

RESULT

Chemical

| SI No. | Parameter | UOM | Method | Limit | Result |
|--------|--------------------------------------------------------------------------------------------------------------|-------------|----------------------------------------------------------------|----------------|--------|
| 1 | Ammonia (as NH3) | micro gm/m3 | TPM/MSK/ENV(AP)/01/8 Issue no- 01 Issue Dated, April 02 , 2018 | 400 (24 Hours) | 32.2 |
| 2 | Arsenic as (As) | ng/m3 | USEPA-IO 3.4 by ICP-OES, June, 1999 | 6 (Annual) | <1.0 |
| 3 | Benzene | micro gm/m3 | IS 5182 (Part 11) :2006 | 5 (Annual) | <4.2 |
| 4 | Benzo(a)Pyrene | ng/m3 | IS 5182 (Part 12) :2004 | 1 (Annual) | <0.5 |
| 5 | Carbon monoxide (as CO) | mg/m3 | IS 5182 (Part 10) (NDIR): 1999 | 2 (8 Hours) | 0.32 |
| 6 | Lead (as Pb) | micro gm/m3 | USEPA-IO 3.4 by ICP-OES, June, 1999 | 1 (24 Hours) | <0.01 |
| 7 | Nickel as Ni | ng/m3 | USEPA-IO 3.4 by ICP-OES, June, 1999 | 20 (Annual) | <5.0 |
| 8 | Nitrogen Dioxide as (NO2) | micro gm/m3 | IS 5182 (Part 6) :2006 | 80 (24 Hours) | 26.7 |
| 9 | Ozone (as O3) | micro gm/m3 | IS 5182 (Part 9) :1974 | 180 (1 Hours) | 25.6 |
| 10 | PM10 (Particulate Matter < 10 μm) /Respirable Suspended Particulate Matter (Cyclonic technique) | micro gm/m3 | IS 5182 (Part 23) :2006 | 100 (24 Hours) | 52.3 |
| 11 | PM2.5 (Particulate Matter < 2.5 μm) | micro gm/m3 | TPM/MSK/ENV(AP)/01/03 Issue no- 01 Issue Date April 02: 2018 | 60 (24 Hours) | 30.1 |
| 12 | Sulphur Dioxide as (SO2) | micro gm/m3 | IS 5182 (Part 2) :2001 | 80 (24 Hours) | <6.0 |
