REPORT OF INDEPENDENT AUDITORS

TO THE BOARD OF DIRECTORS OF
HOOGOVS USA, INC. AND SUBSIDIARIES
WARREN, OHIO

We have audited the accompanying consolidated financial statements of Hoogovens USA, Inc. and Subsidiaries, which comprise the consolidated balance sheets as of March 31, 2016 and 2015, and the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Hoogovens USA, Inc. and Subsidiaries as of March 31, 2016 and 2015, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Consolidating Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information on pages 24-29 is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies, and it is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE A – NATURE OF OPERATIONS

Hoogovens USA, Inc. (“HUSA”) is a wholly-owned subsidiary of Tata Steel Limited (“Tata”). HUSA is a holding company for Thomas Steel Strip Corporation (“TSS”) which is a manufacturer of cold rolled and preplated steel products, Thomas Processing Company (“TPC”), Hille & Mueller USA, Inc. (“HMU”) which is a sales organization, Corus Coatings USA, Inc. (“CCU”), and Apollo Metals, Ltd. (“AML”) which is a steel processor. All subsidiaries are wholly-owned by HUSA.

HUSA was formed in 1997 through the contribution of capital stock in TSS and HMU by a predecessor to Tata. The investment values at HUSA were recorded at the historical acquisition cost recorded by the predecessor to Tata. Therefore, recorded investment values may be different from the equity values of the respective subsidiaries because certain historical purchase price allocation adjustments have not been pushed down to the respective subsidiary financial statements.

TPC is a general partnership, organized in the state of Ohio, for the purpose of pickling and slitting hot rolled steel primarily for TSS. The partners of TPC are TSS and HMU. TSS and HMU are equal voting partners and share in the net income of TPC on the basis of 35.7% and 64.3%, respectively. TSS and HMU account for their investment in TPC using the equity method.

CCU was formed in 1998 as a holding company for the HUSA’s interest in GalvPro, LP, which is now bankrupt. CCU was dissolved during 2014.

AML was acquired in 1999. The acquisition was funded by a capital contribution of \$5,900,000 by a predecessor to Tata and a loan of \$3,000,000 from Hoogovens Aluminum Europe, Inc. (“HAE”). The loan was subsequently assumed by AML.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Consolidation

The financial statements of Hoogovens USA, Inc. and Subsidiaries (the “Companies”) have been consolidated due to the common ownership discussed above. Intercompany balances and transactions were eliminated in consolidating the financial statements of the Companies.

For cash management reasons and to control receipts and disbursements, the Companies maintain, along with other related but legally separate entities, a cash pool at a financial institution. The cash account is administered by Tata Steel International (Americas) Holdings, Inc., a related party. None of the funds are restricted in any way, and the funds on deposit can be freely transferred for use in the general business of the Companies.

Trade Accounts Receivable

The Companies grant credit in the ordinary course of business to their customers. The Companies perform ongoing credit evaluations of their customers’ financial condition and, generally, requires no collateral.

The Companies provide for uncollectible trade accounts receivable by the allowance method. Uncollectible accounts are charged to the allowance in the year that they are determined to be uncollectible. Recoveries are credited to the allowance. The allowance for doubtful accounts is determined based on management’s estimate of uncollectible accounts whereby management considers the Companies’ historical credit losses, existing economic conditions and the financial stability of its customers. As of March 31, 2016 and 2015, management believes all accounts are collectible.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Inventories

Inventories of finished and in-process products and raw materials of the Companies are valued at cost, which is not in excess of market, determined by the FIFO (first-in, first-out) method. The remaining inventories are priced at either specific cost or average manufacturing cost which is not in excess of market.

Property, Plant and Equipment

Property, plant and equipment are carried at cost. Maintenance and repairs are expensed as incurred. Expenditures which significantly extend the useful life of the fixed assets are capitalized. Depreciation is provided on the straight-line basis over the estimated useful lives of the assets as follows:

Land improvements	10 to 30 years
Buildings	25 to 50 years
Machinery and equipment	2 to 30 years

Gas wells are depleted on the basis of units produced.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions relating to the reporting of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Revenue Recognition and Shipping and Handling Costs

Revenues from sales are recorded as products are shipped, except for consignment programs where revenues are recorded as products are taken into production by the customer. Expenditures related to shipping and handling costs are expensed as incurred and included in cost of goods sold.

Income Taxes

The Companies file a consolidated federal income tax return. The Companies account for income taxes using an asset and liability approach. Deferred taxes are recorded for the difference between the book and tax bases of various assets and liabilities.

Nature of Hedged Risks, Strategies, and Fair Value of Hedging Instruments

TSS periodically uses commodity futures contracts to hedge the impact of price fluctuations on anode inventories used in manufacturing. Additionally, TSS enters into corresponding forward contracts with select customers that ensures a matching of the associated risk assumed under the commodity futures contract. These contracts are accounted for as effective hedges.

Unrealized gains and losses on these contracts are included in other accrued liabilities or miscellaneous receivables with a related charge or credit to accumulated other comprehensive income. Upon settlement of the futures contracts, the related gain or loss is included in cost of goods sold to coincide with the classification of those costs of the anode inventories as they are consumed in the manufacturing process. Upon settlement of the corresponding forward contracts, the related gain or loss is included in sales to coincide with the related surcharge or discount associated with the fixed pricing for nickel.

Commodity future contracts and corresponding forward contracts entered into through March 31, 2016 and 2015, with fair market values of \$272,527 and \$478,595 were outstanding as of March 31, 2016 and 2015, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**Reclassifications**

Certain amounts in the prior year financial statements have been reclassified to enhance comparability with the current period information. Such reclassifications had no impact on the Companies' financial position, results of operations, comprehensive income, or cash flows.

NOTE C – NOTES PAYABLE TO AFFILIATED COMPANY

AML has borrowings from a certain related entity. The borrowings from the related entity are unsecured. At March 31, 2016 and 2015, the borrowings amounted to \$3,000,000 and \$7,000,000, respectively. The interest rate on the outstanding borrowings at March 31, 2016 and 2015 was 2.3% and 2.24%, respectively. The outstanding borrowings matured at April 22, 2016 and were extended to July 22, 2016 with an interest rate of 1.94% per annum.

AML's borrowings are expected to be extended upon reaching their stated maturities. In addition, the lender has represented that it will not call the above loans within a one year period from March 31, 2016 and, accordingly, the loans have been classified as long-term in the accompanying consolidated balance sheet. There are no established repayment terms for the debt.

Total interest expense on the related entity borrowings was \$97,542 and \$163,061 for the years ended March 31, 2016 and 2015, respectively.

NOTE D – INCOME TAXES

Components of the Companies' deferred tax assets and liabilities at March 31, 2016 and 2015 are as follows:

	March 31,	
	2016	2015
Taxable temporary differences:		
Depreciation	\$ -	\$ 109,912
Partnership tax differences	35,983	44,543
Other	81,317	82,105
GROSS DEFERRED TAX LIABILITIES	<u>117,300</u>	<u>236,560</u>
Deductible temporary differences:		
Net operating loss and tax credit carryforwards	14,522,888	15,097,701
Pension and postretirement obligations	21,988,584	22,332,631
Depreciation	172,980	-
Accrued liabilities	809,512	837,954
Other	287,086	127,906
GROSS DEFERRED TAX ASSETS	<u>37,781,050</u>	<u>38,396,192</u>
NET DEFERRED TAX ASSETS	37,663,750	38,159,632
NET DEFERRED TAX ASSET VALUATION ALLOWANCE	<u>1,816,384</u>	<u>2,556,384</u>
	<u>\$ 35,847,366</u>	<u>\$ 35,603,248</u>

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes computed on a stand alone basis.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE D – INCOME TAXES (continued)

In evaluating the reasonableness of the valuation allowance, management assesses whether it is more likely than not that some portion, or all, of the deferred tax assets will not be realized. Ultimately, the realization of deferred tax assets is dependent upon generation of future taxable income during those periods in which temporary differences become deductible and/or credits can be utilized. To this end, management considers the level of historical taxable income, the scheduled reversal of deferred tax liabilities, tax-planning strategies and projected future taxable income. Based on these considerations, and the indefinite carry-forward availability of certain deferred tax credits (principally related to alternative minimum tax), management believes it is more likely than not that the Companies will realize \$35,847,366 of the deferred tax asset, thereby reducing the allowance by \$740,000 for the year ended March 31, 2016. The reduction in the allowance results in a total valuation allowance of \$1,816,384 as of March 31, 2016.

The net deferred tax assets include amounts related to the pension liability adjustment, which is accounted for as a separate component of stockholder's equity. The differences between the provision for income taxes at the U.S. statutory rate (34%) and the tax shown in the statement of operations are due to the effect of state taxes and nondeductible expenses and the valuation allowance.

For income tax reporting purposes at March 31, 2016, the Companies had the following net operating loss carryforwards available to offset taxable income and reduce future tax liabilities.

Year of expiration	Federal net operating loss
2029	\$ 2,489,945
2030	4,604,940
	<u>\$ 7,094,885</u>

NOTE E – PENSIONS AND POSTRETIREMENT PLANS

TSS sponsors pension (hourly) and retirement income (salary) defined benefit pension plans. The retirement income plan was frozen by TSS as of December 31, 2007. Pension benefits are based on years of service, career average compensation and compensation during certain years immediately preceding retirement. TSS's employees may become eligible for those benefits if they reach the normal retirement while working for TSS.

TSS's postretirement health care and life insurance plan is not funded. A plan change effective January 1, 2015 resulted in the elimination of all medical and life benefits to current and future salaried retirees. This caused a curtailment with a September 30, 2014 measurement date at a 4.25% discount rate.

AML sponsors defined benefit pension plans for hourly and salary employees. Pension benefits are based on years of service and average career compensation. AML's employees may become eligible for reduced benefits upon attaining age 55 and completing 15 years of service with AML. Normal retirement benefits are attained upon reaching age 65 and completing five years of service.

Hoogovens USA, Inc. and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE E – PENSIONS AND POSTRETIREMENT PLANS (continued)

As of March 31, the following amounts were recognized in the balance sheet and in accumulated other comprehensive (loss):

	Pensions		Postretirement Benefits	
	2016	2015	2016	2015
Amounts recognized in the Balance Sheet:				
Current liabilities	\$ (4,742,912)	\$ (5,749,814)	\$ (779,300)	\$ (804,404)
Other liabilities	(52,661,470)	(52,369,825)	(6,613,567)	(7,402,798)
Total	\$ (57,404,382)	\$ (58,119,639)	\$ (7,392,867)	\$ (8,207,202)
Amounts recognized in Accumulated Other Comprehensive (Loss):				
Prior service (cost) credit	\$ (625)	\$ (2,333)	\$ 541,997	\$ 1,519,656
Net actuarial (loss)	(67,299,986)	(69,513,632)	(7,745,399)	(7,984,844)
Total	\$ (67,300,611)	\$ (69,515,965)	\$ (7,203,402)	\$ (6,465,188)

The following amounts were recognized in accumulated other comprehensive loss, net of tax, for the years ended March 31:

	Pensions		Postretirement Benefits	
	2016	2015	2016	2015
Net actuarial gain (loss)	\$ (2,213,646)	\$ (15,126,884)	\$ 239,445	\$ 1,392,635
Prior service (cost) credit	1,708	1,708	(977,659)	(3,992,484)
Net Amount Recognized in Other Comprehensive Income (Loss)	\$ (2,211,938)	\$ (15,125,176)	\$ (738,214)	\$ (2,599,849)

The assumed health care trend rates at March 31 for the postretirement plans were:

	2016	2015
Health care trend rate assumed for next year	5.50%	6.00%
Rate that the cost trend rate gradually declines to	5.00%	5.00%
Year that the rate reaches the rate it is assumed to remain at	2018	2018

The expected long-term return on plan assets assumption is based on a periodic review and modeling of the plans' asset allocation and liability structure over a long-term period. Expectations of returns for each asset class are the most important of the assumptions used in the review and modeling and are based on comprehensive reviews of historical data and economic/financial market theory. The expected long-term rate of return on assets was selected from within the reasonable range of rates determined by historical real returns, net of inflation, for the asset classes covered by the investment policy and projections of inflation over the long-term period during which benefits are payable to plan participants.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE E – PENSIONS AND POSTRETIREMENT PLANS (continued)

No future increases in pensionable earnings are assumed for participants of TSS's salary pension plan. The annual rate of increase in future compensation is assumed to be 2% for participants in TSS's hourly pension plan.

	Pensions		Postretirement Benefits	
	2016	2015	2016	2015
Components of net periodic benefit cost:				
Service cost	\$ 1,327,101	\$ 1,255,503	\$ 117,607	\$ 144,568
Interest cost	5,904,933	5,685,912	300,910	383,894
Expected return on plan assets	(6,184,563)	(6,817,523)	-	-

Total	100.00%	100.00%	100.00%	100.00%

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

Year ending March 31:	Amount
2016	\$ 8,651,676
2017	8,843,480
2018	8,921,035
2019	8,986,744
2020	9,132,137
2021-2025	45,629,093

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE E – PENSIONS AND POSTRETIREMENT PLANS (continued)

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 fair values are based on at least one significant unobservable input for the asset.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2016 and 2015.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Money market accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective funds: Units held in collective investment funds are valued using the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a collective investment fund is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a collective investment fund is classified within level 2 of the valuation hierarchy.

The estimated fair value of the collective fund is net asset value. The use of net asset value as fair value is deemed appropriate as the collective funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

Investment contract: The guaranteed interest accounts are reported at fair value as determined by Principal Life. The accounts' fair value is the amount that would be received currently if funds were withdrawn from the Plan prior to their maturity for an event other than death, disability, termination, or retirement. This fair value presents guaranteed interest account valued adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. This value represents contributions allocated to the guaranteed interest accounts, plus interest at the contractually guaranteed rate, less funds used to pay plan benefits and the insurance company's administrative fees.

Investment contracts issued by Principal are backed by a general account. Due to the nature of these contracts, they do not have specific underlying assets assigned. The guaranteed interest accounts cannot be sold to a third party, thus, the only option to exit the guaranteed interest accounts is to withdraw the funds prior to maturity. The fair value of the account is the value paid when funds are withdrawn prior to their maturity. If the applicable interest rate is greater than the interest rate on the account, the fair value is the contract value reduced by a percentage. This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE E – PENSIONS AND POSTRETIREMENT PLANS (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2016 and 2015.

Assets Measured at Fair Value at March 31, 2016 on a Recurring Basis

Description	Level 1	Level 2	Level 3
Common/collective funds:			
Fixed income	\$ -	\$ 19,775,501	\$ -

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE E – PENSIONS AND POSTRETIREMENT PLANS (continued)

The following tables set forth a summary of changes in the fair value of the Plan's level 3 assets:

	Investment Contract
Balance, April 1, 2015	\$ 4,959,707
Realized gains	754,758
Unrealized gains relating to instruments still held at the reporting date	(178,704)
Purchases	-
Sales	(1,480,000)
Transfers in and/or out of level 3	-
Balance, March 31, 2016	\$ 4,055,761

	Investment Contract
Balance, April 1, 2014	\$ 8,796,815
Realized gains	1,951,725
Unrealized gains relating to instruments still held at the reporting date	(1,188,833)
Purchases	-
Sales	(4,600,000)
Transfers in and/or out of level 3	-
Balance, March 31, 2015	\$ 4,959,707

TSS expects to contribute \$4,576,512 to the pension plans for the year ended March 31, 2016. AML expects to contribute \$166,400 for the year ended March 31, 2016.

TSS and AML also have 401(k) defined contribution plans. Both hourly and salaried employees are eligible to participate. Total expense for these plans was \$421,882 and \$433,359 for the years ended March 31, 2016 and 2015, respectively.

Multiemployer Pension Plans

TSS and AML contribute to a multiemployer defined benefit pension plan under the terms of collective-bargaining agreements that cover certain unionized employee groups in the United States. Total pension expense charged to continuing operations for union-sponsored plans for the years ended March 31, 2016 and 2015 was \$174,405 and \$142,941, respectively.

The risks of participating in multiemployer pension plans are different from single-employer plans. Assets contributed to a multiemployer plan by one employer may be used to provide benefits to employees of other participating employers. If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE E – PENSIONS AND POSTRETIREMENT PLANS (continued)

TSS's and AML's participation in multiemployer pension plans for the year ended March 31, 2016, is outlined in the table below. The "EIN/PN" column provides the Employee Identification Number (EIN) and the three-digit plan number (PN). The most recent Pension Protection Act (PPA) zone status available for the years ended March 31, 2016 and 2015 is for the plan year-ends as indicated below. The zone status is based on information that TSS and AML received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the yellow zone are between 65 percent and 80 percent funded, and plans in the green zone are at least 80 percent funded. The "FIP/RP Status Pending/Implemented" column indicates plans for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented.

In addition to regular plan contributions, TSS and AML may be subject to a surcharge if the plan is in the red zone. The "Surcharge Imposed" column indicates whether a surcharge has been imposed on contributions to the plan. The last column lists the expiration dates of the collective-bargaining agreements (CBA) to which the plans are subject.

Pension Trust Fund	EIN/PN	PPA Zone Status for year ended March 31,		FIP/RP Status Pending/Implemented	Contributions by TSS and AML for year ended March 31,			Surcharge Imposed	Expiration Date of CBA
		2016	2015		2016	2015	2014		
Steelworkers Pension Trust	23-6648508 / 499	Green - 12/31/2015	Green - 12/31/2014	No	\$174,405	\$142,941	\$103,657	No	3/30/2017 (TSS) 5/5/2018 (AML)

Neither TSS nor AML provided more than 5 percent of total contributions to the plan for the plan years ended December 31, 2015 and 2014.

In addition to regular contributions, TSS and AML could be obligated to pay additional amounts, known as a withdrawal liability, if a multiemployer pension plan has unfunded vested benefits and TSS and AML decreases or ceases participation in that plan. TSS and AML have not recognized a withdrawal liability or withdrawal liability expense related to curtailment and special termination benefits associated with withdrawal from the multiemployer plan.

NOTE F – RELATED PARTY TRANSACTIONS

The Companies, through their owners, are affiliated with various entities of HUSA and the Tata Group. Total steel sales to various affiliated companies were \$2,907,041 and \$3,998,796 for the years ended March 31, 2016 and 2015, respectively. Total steel purchases from various affiliated companies were \$32,168,756 and \$36,108,195 for the years ended March 31, 2016 and 2015, respectively. Receivables from these companies totaled \$509,721 and \$681,571 at March 31, 2016 and 2015, respectively. Accounts payable to these companies totaled \$1,520,357 and \$1,173,862 at March 31, 2016 and 2015, respectively. Management fees charged to TSS and AML from Tata Steel Plating and Tata Steel UK Limited totaled \$2,063,674 and \$1,734,631 for the years ended March 31, 2016 and 2015, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE G – COMMITMENTS AND CONTINGENCIES

TSS is involved in several pending legal proceedings related to workers' compensation claims. While the ultimate outcome of these lawsuits is not presently determinable, it is the opinion of management that the ultimate resolution will not have a material adverse effect on the Companies' consolidated financial position or results of operations.

In accordance with the interim status standards under the Resource Conservation and Recovery Act (RCRA), in 1998 the United States Environmental Protection Agency (USEPA) and the Ohio Environmental Protection Agency (OEPA) approved TSS's closure plan for one USEPA Hazardous Waste No. F006 surface impoundment and three lime stabilized waste pickle liquor (LSWPL) lagoons located onsite. However, these units were never closed in accordance with the approved closure plan.

In 2003, TSS submitted a modified closure plan for OEPA's review and approval. Based upon decisions and agreements reached between OEPA and TSS, TSS prepared and submitted amended closure/post-closure plans for the F006 impoundment and LSWPL lagoons to OEPA in January, 2005. In the plans, TSS committed to complete closure activities and to commence post-closure care activities within 180 days of approval of the plans by OEPA. The closure portions of these plans were implemented during the summer of 2005. TSS forwarded final closure certification reports to the OEPA in October, 2005.

In December, 2005 OEPA approved the reports and granted final certification of closure of the F006 impoundment and the LSWPL lagoons. In March 2008, TSS obtained approval to reduce its groundwater monitoring frequency from semi-annually to annually during the continued implementation of its RCRA post-closure plans. On March 6, 2008, TSS submitted modified post-closure plans to reflect OEPA's approval of the reduced monitoring frequency. By letter dated May 22, 2008, OEPA approved TSS' modified plans. TSS is currently fulfilling its post-closure care obligations for the F006 impoundment and the LSWPL lagoons.

By letter dated August 30, 2006 from OEPA, TSS was notified of its responsibilities under the regulations at Ohio Administrative Code Section 3745-54-101 for investigating and addressing, as necessary, any hazardous waste or hazardous constituent release at or from TSS, regardless of when such releases occurred. An OEPA site inspection was conducted on January 24, 2007. By letter dated February 6, 2007, OEPA requested TSS to create a Statement of Current Conditions by identifying and evaluating solid waste management units (SWMU) and areas of concern (AOC) at the facility. TSS submitted the Statement of Current Conditions to OEPA on April 11, 2007 which identified twenty-four SWMU's as well as two additional AOC's. OEPA concurred with TSS's assessment by letter dated May 7, 2007. TSS has since submitted and implemented an OEPA approved RCRA Facility Investigation (RFI) Work Plan which began in November, 2007. The RFI report recommended no further action for all SWMU's and AOC's pending ultimate decommissioning of the facility operations at some future time, provided one of the investigated SWMU (the on-site, capped nonhazardous waste landfill) is included in a deed notice restricting disturbance of the landfill's clay cap. The OEPA concurred with the RFI Report recommendations by letter dated April 8, 2008.

By letter dated June 5, 2008 from OEPA, TSS was notified of OEPA's intent to issue a Statement of Basis for Remedial Decisions. By letter dated September 23, 2008 from OEPA, TSS was notified of OEPA's issuance of a Final Declaration and Statement of Basis for Remedial Decision (the "Final Decision"). In accordance with the terms and conditions of the Final Decision, TSS submitted an Operations and Maintenance Plan for Waste Management Unit No.5 ("WMU 5") - the on-site, capped nonhazardous waste landfill - which is the only corrective action unit at TSS that has not attained "No Further Action" status. In response to OEPA comments, TSS submitted a Revised Operations and Maintenance Plan for WMU 5 on December 11, 2008. By letter dated February 18, 2009 from OEPA, TSS was notified of OEPA's approval of the Revised Operations and Maintenance Plan for WMU 5.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE G – COMMITMENTS AND CONTINGENCIES (continued)

TSS received and approved final Environmental Covenant language for WMU 5 with OEPA on October 28, 2015. TSS has received and approved a Consensual Findings and Orders ("CF&O") document from OEPA on October 8, 2015. TSS will submit a work plan within 90 days of cessation of operation of a waste management unit on the facilities. Management is unable to estimate the cost of the RFI Work Plan as of March 31, 2016.

NOTE H – PROFIT SHARING PROGRAM

Pursuant to its collective bargaining agreement with the United Steel Workers of America, TSS is required to pay a profit sharing bonus equal to a specified percentage of its pretax profit before profit sharing expense to eligible hourly employees. A new collective bargaining agreement was entered into in December of 2008. Under this agreement, profit sharing expense was \$573,410 for the year ended March 31, 2015. There was no profit sharing expense for the year ended March 31, 2016.

Pursuant to its collective bargaining agreement with the United Steel Workers of America, AML is required to pay a profit sharing bonus equal to a specified percentage of its pretax profit before profit sharing expense to eligible hourly employees. A new collective bargaining agreement was entered into in May of 2009. Under this agreement, profit sharing expense was \$105,674 and \$146,818 for the years ended March 31, 2016 and 2015, respectively.

NOTE I – CONCENTRATION OF RISK

The Companies maintain their cash in a financial institution which, at times, may exceed federally insured limits. The Companies have not experienced any losses from such accounts, and management believes the Companies are not exposed to significant credit risk related to bank deposit accounts.

Major Customers

TSS has a concentration of sales and receivables in the battery industry. Three companies accounted for approximately 62% and 54% of TSS's sales for the years ended March 31, 2016 and 2015, respectively. Receivables from these customers were \$2,652,932 and \$2,456,216 at March 31, 2016 and 2015, respectively.

AML's three largest customers accounted for approximately 65% of AML's sales for the year ended March 31, 2016. AML's four largest customers accounted for approximately 79% of AML's sales for the year ended March 31, 2015. Receivables from these customers were \$1,252,482 and \$1,122,386 at March 31, 2016 and 2015, respectively.

Collective Bargaining Arrangements

As of March 31, 2016 and 2015, approximately 75% of TSS's workforce was subject to collective bargaining agreements. These agreements expire in March of 2017.

As of March 31, 2016 and 2015, approximately 76% and 74%, respectively of AML's workforce was subject to collective bargaining agreements. None of these agreements expire within one year.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE J – OPERATING LEASES

TSS and AML lease certain equipment under agreements accounted for as operating leases. The following is a yearly statement of the future minimum payments under noncancellable leases at March 31, 2016:

Year ending March 31:	Amount
2017	\$ 495,887
2018	453,479
2019	314,147
2020	279,296
2021	279,296
After 2021	1,140,460
	<u>\$ 2,962,566</u>

In most cases, management expects that in the normal course of business all leases will be renewed or replaced by other leases. Rental expense charged to operations totaled \$688,712 and \$820,609 for the years ended March 31, 2016 and 2015, respectively.

NOTE K – FAIR VALUE MEASUREMENTS

The Companies have characterized their financial instruments, based on the priority of the inputs used to value the financial instruments, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities [Level 1], and the lowest priority to unobservable inputs [Level 3]. If the inputs used to measure the investments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the financial instruments.

Financial instruments recorded in the balance sheet are categorized based on the inputs to valuation techniques as follows:

Level 1: These are financial instruments where values are based on unadjusted quoted prices for identical sets in an active market that the Companies have the ability to access.

Level 2: These are financial instruments where values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the financial instruments.

Level 3: These are financial instruments where values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect assumptions of management about assumptions market participants would use in pricing the financial instruments.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2016 and 2015

NOTE M – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through June 28, 2016, which is the date the financial statements were available to be issued. With the exception of those matters discussed in Note C, there were no material subsequent events that required recognition or disclosure in these financial statements.
