B. Annual report

Summary of the most important principles for valuation and determination of results

General

The financial statement has been drafted conform the generally accepted accounting principles for determination of results in The Netherlands, as determined in Part 9, Book 2 of the Civil Code.

The financial statement has been drafted on basis of the historical cost price. Unless otherwise indicated, have the assets and liabilities been valued against nominal value.

Financial fixed assets

In the company's Balance sheet the group companies and non-consolidated are taken up on basis of the cost-price. The cost-price is determined as being the part of Beheermaatschappij Industriële Producten B.V in the net assets per 31 December 2000. Provisions are formed if due to events or circumstances it can be expected that the amount for which interest have been taken up in the balance, are possibly not recouped. The income from this interest consists of the dividends that have been determined till the balance sheet date.

Claims

Claims are taken up after deduction of the provisions for dubious debtors.

Debts

Debts that expire within one year are marked as short-term.

Taxes

With the calculation of the taxes over the profit or loss and over direct mutations in the reserves, the actual tax tariffs are assumed. The difference between the tax amounts calculated in this manner and the tax amounts on basis of the calculation of the result conform the tax-code is entered on the Balance sheet as a latent tax liability or asset (in accordance with the period-allocation method).

In general no provisions are entered into the Balance sheet for deferred tax liabilities related to land and interest in subsidiaries and related companies. Deferred tax liabilities are not activated if there is insufficient certainty that these will be compensated in the future.
